

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC Online. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (CP20-527-000) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR part 385.214). Motions to intervene are more fully described at <https://www.ferc.gov/ferc-online/ferc-online/how-guides>. Only intervenors have the right to seek rehearing or judicial review of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Questions?

Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

Dated: June 25, 2021.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2013-0327; FRL-10025-82-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Portland Cement Plants (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Portland Cement Plants (EPA ICR Number 1051.15, OMB Control Number 2060-0025), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through August 31, 2021. Public comments were previously requested, via the **Federal Register** (85 FR 28003), on May 12, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 2, 2021.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0327, online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person, at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the General Provisions (40 CFR part 60, subpart A), as well as for the specific requirements at 40 CFR part 60, subpart F. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are

used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities: Portland cement plants.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart F).

Estimated number of respondents: 92 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 14,100 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,390,000 (per year), which includes \$744,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The decrease in burden from the most-recently approved ICR is due to a decrease in the number of affected existing facilities, as identified by a review of Portland cement facilities reporting in EPA's ECHO and GHGRP databases. This change also results in a decrease in operation and maintenance costs. This ICR maintains an assumption that there will be no new respondents over the next three years, but two existing plants will undergo modification or reconstruction. Therefore, the capital costs have not changed from the previous ICR.

Courtney Kerwin,

Director, Regulatory Support Division.

The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's

public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Electric Arc Furnace Steelmaking Facilities (40 CFR part 63, subpart YYYYY) apply to existing facilities and new Electric Arc Furnace (EAF) steelmaking facilities that are area sources of hazardous air pollutants (HAP) emissions. These standards establish particulate matter (PM) emission limits for control devices and opacity limits for melt shops, pollution prevention requirements for ferrous scrap that is melted in EAFs, and monitoring, reporting, and recordkeeping requirements. New facilities include those that commenced construction or reconstruction after the date of proposal. NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities: Owners or operators of electric arc furnace steelmaking facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart YYYYY).

Estimated number of respondents: 81 (total).

Frequency of response: Initially, semiannually, and occasionally.

Total estimated burden: 4,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$485,000 (per year), which includes \$15,500 in annualized capital/startup costs. There are no operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the total estimated respondent burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The decrease in burden from the most-recently approved ICR is due to a decrease in the number of affected existing facilities, as identified by a review of the EAF facility source list and by consulting with internal Agency experts at OAQPS. This change also results in an increase in capital/startup costs. The previous ICR did not account for any capital/startup costs as the growth rate for the industry was very
