

not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

The NRC will consider such comments submitted and forward those comments, as well as the information submitted by TVA, to the United States Attorney General. Upon reviewing this information, the United States Attorney General will provide the NRC with an opinion on whether there have been significant changes related to antitrust matters in TVA's activities.

Upon completion of the staff's review of significant changes, and after considering any opinion from the United States Attorney General and comments submitted by the public, the Director of the Office of Nuclear Reactor Regulation (NRR), as authorized by the Commission, may issue an initial finding as to whether there have been "significant changes" under Section 105c(2) of the AEA. A copy of this finding will be published in the **Federal Register** and will be sent to the Washington, DC public document room and to those persons providing comments or information in response to this notice. The NRC will also make that initial finding available in ADAMS.

If the initial finding concludes that there have not been any significant changes, a request for reevaluation of the finding may be submitted within 30 days of the date of that **Federal Register** notice. The results of that reevaluation, if requested, will also be published in the **Federal Register**, and copies will be sent to the Washington, DC public document room. The reevaluation will also be available on the NRC's public website through ADAMS. If that determination also finds no significant changes, it will become the final NRC decision after 30 days unless the Commission exercises sua sponte review.

If the Director of NRR concludes that significant changes have occurred since the completion of the antitrust review that the NRC previously conducted, the NRC will begin the procedures necessary to conduct an in-depth antitrust review, as required by Section 105c of the AEA.

Information about the proposed action and the antitrust review process may be obtained from Mr. Aaron Szabo at 301-415-1985 or by e-mail to Aaron.Szabo@nrc.gov.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below. The Code of Federal Regulation citation to this collection of information is 17 CFR 240.6a-4 and 17 CFR 249.10 under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) (the "Act").

Section 6 of the Act¹ sets out a framework for the registration and regulation of national securities exchanges. Under the Commodity Futures Modernization Act of 2000, a futures market may trade security futures products by registering as a national securities exchange. Rule 6a-4² sets forth these registration procedures and directs futures markets to submit a notice registration on Form 1-N.³ Form 1-N calls for information regarding how the futures market operates, its rules and procedures, its criteria for membership, its subsidiaries and affiliates, and the security futures products it intends to trade. Rule 6a-4 also requires entities that have submitted an initial Form 1-N to file: (1) Amendments to Form 1-N in the event of material changes to the information provided in the initial Form 1-N; (2) periodic updates of certain information provided in the initial Form 1-N; (3) certain information that is provided to the futures market's members; and (4) a monthly report summarizing the futures

market's trading of security futures products. The information required to be filed with the Commission pursuant to Rule 6a-4 is designed to enable the Commission to carry out its statutorily mandated oversight functions and to ensure that registered and exempt exchanges continue to be in compliance with the Act.

The respondents to the collection of information are futures markets.

The Commission estimates that the total annual burden for all respondents to provide the amendments and periodic updates under Rule 6a-4 would be 45 hours (15 hours/respondent per year × 3 respondents) and \$300 of miscellaneous clerical expenses. The Commission estimates that the total annual burden for the filing of the supplemental information and the monthly reports required under Rule 6a-4 would be 37.5 hours (12.5 hours/respondent per year × 3 respondents) (rounded to 38 hours) and \$375 of miscellaneous clerical expenses.

Compliance with Rule 6a-4 is mandatory. Information received in response to Rule 6a-4 shall not be kept confidential; the information collected is public information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.
