

The majority of the site will be maintained for its natural resources. Short Hill will be managed similarly.

Maryland Heights will undergo stabilization of earthworks and fortifications as necessary and restoration of line of fire vistas. Historic roads will continue to be used and maintained. A more comprehensive level of interpretation will be achieved through wayside exhibits, site brochures and occasional ranger-guided hikes. Three additional alternatives were analyzed in the Draft and Final Environmental Impact Statements. The full range of foreseeable environmental consequences was assessed, and appropriate mitigating measures were identified.

The Regional Director, National Capital Region, approved the Record of Decision for the project. The official primarily responsible for implementing the General Management Plan is the Superintendent of Harpers Ferry National Historical Park.

Dated: July 22, 2011.

Stephen E. Whitesell,
