SUPPLEMENTARY INFORMATION:

Title: Federal-Aid Highway Construction Equal Employment Opportunity.

OMB Control Number: 2125-0019 (Expiration Date: January 31, 2004).

Background: Title 23, part 140(a), requires the FHWA to ensure equal opportunity regarding contractors' employment practices on Federal-aid highway projects. To carry out this requirement the contractors must submit to the State highway agencies an annual report providing employment work force data, which includes the number of minorities, women, and non-minorities in each construction craft. This information is reported on Form PR-1391, Federal-Aid Highway Construction Contractors Summary of Employment Data. The statute also requires the State highway agencies to submit a report to the FHWA summarizing the data entered on the PR-1391 forms. This summary data is provided on Form PR-1392, Federal-Aid Highway Construction Contractors Summary of Employment Data. The FHWA uses this data to identify patterns and trends of employment in the highway construction industry, and to determine the adequacy and impacts of the FHWA's contract compliance and on-the-job training programs.

Estimated Annual Burden: The FHWA estimates the total annual burden hours imposed on the public by this collection is 6,580 hours; *i.e.*, 2,080 hours is required by the 52 State highway agencies to complete and submit the Form PR-1392, and an additional 4,500 hours is required for 4,500 Federal-aid highway construction

contractors to complete and submit the Form PR-1391.

Number of Respondents: 52 State highway agencies and 4,500 Federal-aid highway construction contractors.

Surface Transportation Board

[STB Finance Docket No. 34305]

The Burlington Northern and Santa Fe Railway Company—Construction and Operation Exemption—in Merced County, CA

AGENCY: Surface Transportation Board, Transportation.

ACTION: Notice of Availability of Environmental Assessment and request for comments.

SUMMARY: The Surface Transportation Board's (Board) Section of Environmental Analysis (SEA) has prepared an Environmental Assessment (EA) in response to a petition filed by the Burlington Northern and Santa Fe Railway Company. The petition seeks an exemption under 49 U.S.C. 10502 from the prior approval requirements of 49 U.S.C. 10901 for authority to construct and operate an 850-foot long rail line in Merced, California. The EA identifies the natural and man-made resources in the area of the proposed rail line and analyzes the potential impacts of the rail line construction and operation on these resources. Based on the information provided from all sources to date and its independent analysis, SEA preliminarily concludes that construction and operation of the proposed rail line would have no significant environmental impacts if the Board imposes and the Burlington Northern and Santa Fe Railway Company implements the recommended mitigation measures set forth in this EA. Copies of the EA have been served on

all interested parties and will be made available to additional parties upon request. The entire EA is also available on the Board's Web site (<http://www.stb.dot.gov>) by clicking on the "Decisions & Notices" button and searching by Service Date (November 7, 2003), Docket Number (FD 34305) or Full Text (key word "Quebecor"). SEA will consider all comments received when making its final environmental recommendations to the Board. The Board will then consider SEA's final recommendations and the complete environmental record in making its final decision in this proceeding.

DATES: The EA is available for public review and comment. Comments must be postmarked December 10, 2003.

ADDRESSES: Comments (an original and 10 copies) should be sent in writing to: Surface Transportation Board, Case Control Unit, 1925 K Street, NW., Washington, DC 20423.
