This notice also lists the following information:

Title of Proposal: Mortgage Record Change.

OMB Control Number, if applicable: 2502-0422.

Description of the need for the information and proposed use: The Mortgage Record change information is used by FHA-approved mortgagees to comply with HUD requirements for reporting the sale of a mortgage between investors, 24 CFR 203.431, and/or the transfer of the mortgage servicing responsibility, 24 CFR 203.502, as appropriate. The information required is used to update HUD's Single Family Insurance System and other related systems. Current data is necessary to establish mortgage premium liability, forward annual premium mortgage data to the appropriate mortgagee/servicer, and maintain premium receivables and program data regarding investors/servicer activity. Without the required data, the premium collection/monitoring function would be severely impeded and program data would be unreliable. This information is essential because HUD does case level accounting in recording premium payments by mortgagees.

Agency form numbers, if applicable: Not applicable. Form HUD-92080 is now obsolete.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The public reporting burden for this collection of information is estimated to average 0.1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The number of respondents is approximately 9,100, the frequency of response is as required, and the volume per respondent is 20-20,000 annually.

Status of the proposed information collection: Extension of a currently approved collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: April 26, 2004.

ADDRESSES: Your comments and suggestions on specific requirements should be sent to our Information Collection Clearance Officer, Anissa Craghead, U.S. Fish and Wildlife Service, 4401 N. Fairfax Dr., MS 222, Arlington, VA 22203, telephone 703/358-2445, fax 703/358-2269.

FOR FURTHER INFORMATION CONTACT: Colleen Corrigan, Division of Habitat and Resource Conservation, Branch of Resource Management Support,

Arlington, Virginia, at 703/358-2161, or Dean Cramer, Office of Marine Mammals Management, Anchorage, Alaska, at 907/786-3806.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies be given an opportunity to comment on information collection and record keeping activities (see 5 CFR 1320.8(d)). We are submitting a request to OMB to renew its approval of a collection of information concerning marking, tagging, and reporting requirements for the take of polar bear, northern sea otter, and Pacific walrus. We are requesting a three-year term of approval for this information collection activity. Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection of information is 1018-0066.

In October 1988, pursuant to provisions of section 109(i) of the Marine Mammal Protection Act (MMPA) of 1972, as amended (16 U.S.C. 1361-1407), we implemented formal Marking, Tagging, and Reporting Regulations in 50 CFR 18.23(f) for Alaskan Natives harvesting polar bear (*Ursus maritimus*), northern sea otter (*Enhydra lutris kenyoni*), and Pacific walrus (*Odobenus rosmarus divergens*) in Alaska. Under section 101(b) of the MMPA, Alaskan Natives residing in Alaska and dwelling on the coast of the North Pacific or Arctic Oceans may harvest these species for subsistence or handicraft purposes. Section 109(i) of the MMPA authorizes us, acting on behalf of the Secretary of the Interior, to prescribe marking, tagging, and reporting regulations applicable to this Alaskan Native subsistence and handicraft take.

On June 28, 1988, under authority of section 109(i) of the MMPA, we published a final rule in the **Federal Register** (53 FR 24277) that added paragraph (f) to our marine mammal regulations at 50 CFR 18.23. These regulations have enabled us to gather data on the Alaskan Native subsistence and handicraft harvest, and on the biology of polar bear, northern sea otter, and Pacific walrus in Alaska in order to determine what effect such take may be having on these populations. The regulations have also provided us with a means of monitoring the disposition of the harvest to ensure that any commercial use of products created

from these species meets the criteria set forth in section 101(b) of the MMPA.

The information that we propose to continue to collect from Alaskan Natives beyond the currently authorized period that expires on October 31, 2004 (under OMB Clearance Number 1018-0066), will be used to improve our decision-making ability upon which we can base future management decisions. Further, it will provide us with the ability to make inferences about the condition and general health of these populations. Without authority to collect this harvest information, our ability to measure the take of polar bear, sea otter and walrus is inadequate. We believe that mandatory marking, tagging and reporting is essential for us, in concert with Alaskan Natives, to be able to improve the quality and quantity of harvest and biological data necessary to base future management decisions and allows us to make rational, knowledgeable decisions regarding the Alaskan Native harvest.

We estimate that the total annual burden associated with this request will be 639 hours for each year of the 3-year period of OMB authorization. We calculated this estimated burden based on previous experience suggesting that Alaskan Natives annually will take a combined total of approximately 2,556 polar bears, northern sea otter, and Pacific walrus for subsistence and handicraft purposes, and that 15 minutes will be needed to provide the required information for each animal taken.
