

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit amendment.

SUMMARY: Notice is hereby given that James T. Harvey, Ph.D., Moss Landing Marine Laboratories, 8272 Moss Landing Road, Moss Landing, CA 95039, has been issued a major amendment to Permit No. 555-1870-00.

ADDRESSES: The permit amendment and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

FOR FURTHER INFORMATION CONTACT: Amy Sloan or Tammy Adams, (301)713-2289.

SUPPLEMENTARY INFORMATION: On December 8, 2009, notice was published in the **Federal Register** (74 FR 64686) that a request for an amendment to Permit No. 555-1870-00 to conduct research on harbor seals (*Phoca vitulina*) had been submitted by the above-named applicant. One project in the requested permit amendment (increasing the number of animals taken in the wild) has been issued and another project in the requested amendment (temporary captivity of wild seals) has been denied under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The permit amendment (Permit No. 555-1870-01) authorizes an increase in the number of harbor seal pups taken annually in California by capture, sedation, tagging, and sampling from 40 seals (20 males and 20 females) to 70 seals (35 males and 35 females). The request to bring up to six seals into temporary captivity for a pilot study to assess the efficacy of a modified sedation protocol for the surgical implantation of subcutaneous tag implants was denied. The facility proposed did not meet minimum standards for space as required by Animal Welfare Act regulations for the humane handling, care and treatment of marine mammals. Therefore, the applicant could not demonstrate that the activity proposed was humane and did not present any unnecessary risks to

the health and welfare of the marine mammals (50 CFR 216.34(1)(a)).

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Dated: February 24, 2010.

Tammy C. Adams,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
