

the Fish and Wildlife Coordination Act, nor does it threaten to violate a Federal, State, local or tribal law or requirement imposed for the protection of the environment.

5. Approval of the Plan would not establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.

The Service therefore has made a preliminary determination that approval of the Plan qualifies as a categorical exclusion under the National Environmental Policy Act, as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). Based upon this preliminary determination, we do not intend to prepare further National Environmental Policy Act documentation. The Service will consider public comments in making its final determination on whether to prepare such additional documentation.

The Service provides this notice pursuant to section 10(c) of the Endangered Species Act. We will evaluate the permit application, the Plan, and comments submitted thereon to determine whether the application meets the requirements of section 10 (a) of the Act. If the requirements are met, the Service will issue a permit to the Westwood Tributary Point for the incidental take of the valley elderberry longhorn beetle from development of the Westwood Tributary Point Office Project area. We will make the final permit decision no sooner than 30 days from the date of this notice.

Dated: September 8, 2000.

Regulations governing permits for endangered species are at 50 CFR 17.22.

*Applicant:* Marion Kelly Walraven plans to construct a recreational vehicle park and campground on approximately 1.8 acres of the 10.516-acre property
