### Submission for OMB Review; Comment Request

DoC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* Minority Business Development Agency.

*Title:* Performance Database (formerly the Business Development Report (BDR) System), Phoenix (formerly Automated Business Enterprise Locator System (ABELS)) and the Opportunity Database Systems.

*Agency Form Number:* None.

*OMB Approval Number:* Formerly 0640-0002.

*Type of Request:* Revision, with change, of a previously approved collection for which approval has expired.

*Burden:* 50, 1050 and 1,570 hours annually, respectively.

*Number of Respondents:* 50, 1,050 and 1,570, respectively.

*Avg. Hours per Response:* 3-15 minutes.

*Needs and Uses:* The purpose of the Performance, Phoenix and Opportunity databases is to provide an electronic system for (1) entering the accomplishments (Performance) of MBDA's funded organizations, (2) entering minority-owned businesses doing business in the United States (Phoenix), and matching contract opportunities with eligible minority companies listed in the Phoenix database (Opportunity).

Specific uses of the on-line Performance Database include:

The documentation of actual performance accomplishments of each funded organization compared with stated goals in its cooperative agreement with MBDA. The Performance database permits tracking of each funded organization's goals using a number of general and specific variables. The flexibility of the database permits new variables to be added as needed.

The verification of the summary performance accomplishments cited in narrative reports. Based on the results, performance data and other qualitative information obtained during MBDA quarterly monitoring

will determine whether a specific cooperative agreement should be terminated or other actions are needed to improve performance.

The advantage of daily tracking of performance is that it will enable managers not only to terminate non-performing funded organizations but, more importantly, to address performance problems early in their development.

Identifies minority business clients receiving Agency-sponsored business development services in the form of management and technical assistance, the kind of assistance each receives, and the impact of that assistance on the growth and profitability of the client firms.

The preparation of special reports analyzing program activities and services by business types, industry trends, business starts, geographic profiles, successful capital and marketing opportunities, and other program elements.

The system permits client identification using a unique computer-assigned identifier for each funded organization. This identification is related to all client data fields. Number of clients assisted, types of assistance, number of hours of assistance, dollar amounts of loans, bonds and contracts, as well as a number of other variables are available for analysis on each client and funded organization.

MBDA requires this information to monitor, evaluate, and plan Agency programs which effectively enhance the development of the minority business sector.

Using information collected, MBDA produces *ad hoc* and recurring reports on its funded organizations, client services activities and accomplishments. Because MBDA's major funded activity is client service, the reports generated are a primary agency reporting and planning mechanism.

The purpose of this collection will be to establish a framework for assessing and evaluating projects' performance.

The Phoenix database constitutes the Minority Business Development Agency's (MBDA) listing of minority-owned businesses doing business in the United States. The Opportunity database contains public and private
