Cancellation Order for Certain Pesticide Registrations and Amendments To Terminate Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations and amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a July 30, 2020 **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II to voluntarily cancel and amend to terminate uses of these product registrations. In the July 30, 2020 notice, EPA indicated that it would issue an order implementing the cancellations and amendments to terminate uses, unless the Agency

received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received one anonymous public comment on the notice, but it didn't merit its further review of the requests. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations and amendments are effective September 23, 2020.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since

others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2020-0060, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

II. What action is the Agency taking?

This notice announces the cancellations and amendments to terminate uses, as requested by the registrants, of products registered under FIFRA section 3 (7 U.S.C. 136a). These registrations are listed in sequence by registration number in Tables 1, 1A and 2 of this unit.

III. Summary of Public Comments Received and Agency Response to Comments

During the public comment period provided, EPA received one anonymous public comment in response to the July 30, 2020 **Federal Register** notice announcing the Agency's receipt of the requests for voluntary cancellations and amendments to terminate uses of the products listed in Tables 1, 1A and 2 of Unit II. For this reason, the Agency does not believe that the comment submitted during the comment period merits further review or a denial of the requests for voluntary cancellation or use termination.

IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)(1)), EPA hereby approves the requested cancellations and amendments to terminate uses identified in Tables 1, 1A and 2 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II are canceled and amended to terminate the affected uses. The effective date of the cancellations that are subject of this notice is September 23, 2020. The effective date of the cancellation in Table 1A is December 31, 2019. Any distribution, sale, or use of existing stocks of the products identified in Tables 1, 1A and 2 of Unit II in a manner inconsistent with any of the provisions for disposition of existing

stocks set forth in Unit VI will be a violation of FIFRA.

V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of July 30, 2020 (85 FR 45877) (FRL–10012–40). The comment period closed on August 31, 2020.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the products subject to this order is as follows:

A. For Product 56228–32

For the 56228–32 listed in Table 1A of Unit II, the registrant has requested

the effective date of the cancellation to be December 31, 2019; therefore, the registrant will be permitted to sell and distribute existing stocks of this product until December 31, 2020. Thereafter, the registrant will be prohibited from selling or distributing the product in Table 1A of Unit II, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal.

B. For All Other Voluntary Cancellations, Identified in Table 1 of Unit II

For all other voluntary cancellations, identified in Table 1 of Unit II, the registrants may continue to sell and distribute existing stocks of the products listed in Table 1 until September 23, 2021, which is 1 year after publication of this cancellation order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal.

Now that EPA has approved product labels reflecting the requested amendments to terminate uses, registrants are permitted to sell or distribute the products listed in Table 2 of Unit II under the previously approved labeling until March 23, 2022, a period of 18 months after publication of the cancellation order in this **Federal Register**, unless other restrictions have been imposed. Thereafter, registrants

will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of the canceled products and products whose labels include the terminated uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products and terminated uses.

Authority: 7 U.S.C. 136 *et seq.*

Dated: September 17, 2020.

Clean Water Act: Virginia—Sarah Creek and Perrin River Vessel Sewage No-Discharge Zone—Final Affirmative Determination

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice—final determination.

SUMMARY: On behalf of the Commonwealth of Virginia (the Commonwealth), the Secretary of the Virginia Department of Natural Resources requested that the Regional Administrator, U.S. Environmental Protection Agency, Region 3 approve a no-discharge zone for Sarah Creek and Perrin River, Gloucester County, Virginia pursuant to the Clean Water Act. After review of Virginia's application, the EPA determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the entirety of Sarah Creek and Perrin River. The application is available upon request from the EPA (at the email address below) or at <https://www.deq.virginia.gov/Programs/Water/WaterQualityInformationTMDLs/TMDL/NoDischargeZoneDesignations.aspx>.

DATES: This approval is effective upon the date of publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Matthew A. Konfirst, U.S. Environmental Protection Agency—Region III. Telephone: (215) 814-5801, Fax number: (215) 814-5007; email address: konfirst.matthew@epa.gov.

SUPPLEMENTARY INFORMATION: As described in the Commonwealth's application, the extent of the proposed no-discharge zone of Sarah Creek from

York River begins at 37°14'58.34" N, 76°29'39.17" W and extends to 37°15'00.81" N, 76°28'37.84" W. From there it continues north throughout any navigable waters including all tributaries and bays. The delineation of the proposed no-discharge zone of Perrin River from York River begins at 37°15'47.18" N, 76°25'20.73" W and extends to 37°15'50.63" N, 76°25'11.84" W. From there it continues north throughout any navigable waters including all tributaries and bays.

The Commonwealth certified that there are three stationary and one mobile pumpout facilities at two locations along Sarah Creek and one stationary pumpout facility along the Perrin River. Two of the three locations also have a method to empty portable toilets. Furthermore, the Hampton Roads Sanitation District (HRSD) provides free portable pumpout service in Gloucester County on Fridays, Saturdays, and Sundays during summer months and on Saturdays the rest of the year. HRSD prefers to service marinas but will provide the portable pumpout at a private residence when requested. The Virginia Department of Health (VDH) ensures that proper sanitary facilities are present at marinas, and marina facilities are inspected annually by VDH for compliance with regulations. A list of the facilities, phone numbers, locations, and hours of operation follows.

LIST OF FACILITIES WITH PUMPOUTS IN THE PROPOSED NO-DISCHARGE ZONE

Pumpout facility	Operating hours	Mean low water depth (ft)	Phone No.	Address
York River Yacht Haven (Sarah Creek).	24/7	8	804-642-2156	8109 Yacht Haven Road Gloucester Point, VA 23062.
Dockside Condominiums (Sarah Creek).	24/7 April 1–November 15	6	757-876-1568	Sunset Drive Gloucester Point, VA 23062.
Crown Pointe Marina (Perrin River)	The pumpout is available 24/7 from March 1–November 30 (so it is available even if the other marina services are closed). Dec 1–Feb 28 pumpout is winterized.	5	804-642-6177	9737 Cooks Landing Road Hayes, VA 23072.

The Commonwealth provided documentation indicating that the total vessel population is estimated to be 3,563 vessels (2,115 in Sarah Creek and 1,448 in Perrin River), the majority of which are recreational. The most conservative vessel population estimates provided by the Commonwealth of Virginia suggest that there are 535 vessels less than 16 feet in length, 1,531 vessels between 16 feet and 25 feet in length, 1,263 vessels between 25 feet and 40 feet in length,

and 234 vessels greater than 40 feet in length. Commercial traffic on these waterways is limited to 24–30 dead rise workboats, two large fiberglass fishing boats, three charter fishing boats, and a few small tugs that work at the oil refinery on the other side of the York River. Most commercial boats, such as local watermen's boats, generally do not have marine sanitation devices (MSDs) installed and do not require a pumpout. As described in the Commonwealth's application, two large fiberglass fishing

boats in the Perrin River have MSDs. Additionally, a few small tugboats use the Perrin River as a staging area. These vessels likely have MSDs onboard, but also use porta-johns located on the barges. Of the three charter fishing boats that are kept in Sarah Creek and operate primarily on the York River and Chesapeake Bay, two have porta-potties, while the third has an existing holding tank. Based on the number and size of vessels and EPA NDZ guidance (*Protecting Coastal Waters from Vessel*
