

formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),³ and trail use/rail banking requests under 49 CFR 1152.29 must be filed by June 18, 2010. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by June 28, 2010, with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to EJ&E's representative: Thomas J. Healey, 17641 S. Ashland Avenue, Homewood, IL 60430.

If the verified notice contains false or misleading information, the exemption is void *ab initio*.

EJ&E has filed a combined environmental and historic report which addresses the effects, if any, of the abandonment on the environment and historic resources. SEA will issue an environmental assessment (EA) by June 11, 2010. Interested persons may obtain a copy of the EA by writing to SEA (Room 1100, Surface Transportation Board, Washington, DC 20423-0001) or by calling SEA, at (202) 245-0305. [Assistance for the hearing impaired is available through the Federal Information Relay Service (FIRS) at 1-800-877-8339.] Comments on environmental and historic preservation matters must be filed within 15 days after the EA becomes available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), EJ&E shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the line. If consummation has not been effected by EJ&E's filing of a notice of consummation by June 8, 2011, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

Board decisions and notices are available on our Web site at "<http://www.stb.dot.gov>."

Decided: June 2, 2010.

Environmental Analysis (SEA) in its independent investigation) cannot be made before the exemption's effective date. See *Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any request for a stay should be filed as soon as possible so that the Board may take appropriate action before the exemption's effective date.

³ Each OFA must be accompanied by the filing fee, which is currently set at \$1,500. See 49 CFR 1002.2(f)(25).

By the Board, Rachel D. Campbell, Director, Office of Proceedings.

Jeffrey Herzig,
Clearance Clerk.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2010-0063; Notice 1]

Foreign Tire Sales, Inc., Receipt of Petition for Decision of Inconsequential Noncompliance

Foreign Tire Sales, Inc. (FTS)¹, as importer of record for ProMeter brand medium truck radial replacement tires

¹ Foreign Tire Sales, Inc. is an importer of replacement motor vehicle equipment, incorporated under the laws of the State of New Jersey, with offices at 2204 Morris Avenue, Suite L-5, Union, New Jersey.

manufactured by Shandlong Linglong Rubber Company Limited has determined that certain replacement tires manufactured during the period between the 15th week of 2008 and 22nd week of 2009 do not fully comply with paragraph S6.5(d) of 49 CFR 571.119 Federal Motor Vehicle Safety Standard (FMVSS) No. 119, *New Pneumatic Tires for Motor Vehicles With a GVWR of More than 4,536 Kilograms (10,000 pounds) and Motorcycles*. FTS has filed an appropriate report pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports*.

Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), FTS has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of FTS's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Affected are approximately 2,659 size 285/75R-24.5 14 ply (steer and drive) and 295/75R-22.5 14 ply (steer and drive) ProMeter brand medium truck radial tires manufactured during the period between the 15th week of 2008 and 22nd week of 2009 with DOT Numbers: 285/75R-24.5—

OU4CFTS1508-OU4CFT2209 and 295/75R-22.5—OU34FTS1508-OU34FTS2209. FTS stated that it believed that 100% of the 2,659 tires involved contained the identified non-compliance.

FTS sold these tires to eleven customers who are distributors. Three of the eleven distributors have not sold any tires to their customers.

In a supplemental letter dated April 14, 2010, FTS submitted corrections of typographical errors in its petition and stated that subsequent to submitting its petition it had decided to remedy all of the subject tires that it held in its possession as well as those that had not been sold by its customers (tire distributors). FTS also revised its estimate of the number of affected tires that had been sold and not retrieved for remedy as 2000. Therefore, it is only those 2000 tires for which FTS is requesting exemption because it claims that the remaining 659 tires have been remedied.

Paragraph S6.5(d) of 49 CFR 571.119 (FMVSS 119) requires in pertinent part:

S6.5 Tire markings. Except as specified in this paragraph, each tire shall be marked on

each sidewall with the information specified in paragraphs (a) through (j) of this section. The markings shall be placed between the maximum section width (exclusive of sidewall decorations or curb ribs) and the bead on at least one sidewall, unless the maximum section width of the tire is located in an area which is not more than one-fourth of the distance from the bead to the shoulder of the tire. If the maximum section width falls within that area, the markings shall appear between the bead and a point one-half the distance from the bead to the shoulder of the tire, on at least one sidewall. The markings shall be in letters and numerals not less than 2 mm (0.078 inch) high and raised above or sunk below the tire surface not less than 0.4 mm (0.015 inch), except that the marking depth shall be not less than 0.25 mm (0.010 inch) in the case of motorcycle tires. The tire identification and the DOT symbol labeling shall comply with part 574 of this chapter. Markings may appear on only one sidewall and the entire sidewall area may be used in the case of motorcycle tires and recreational, boat, baggage, and special trailer tires * * *

(d) The maximum load rating and corresponding inflation pressure of the tire, shown as follows:

(Mark on tires rated for single and dual load): Max load single _____ kg (_____ lb) at _____ kPa (_____ psi) cold. Max load dual _____ kg (_____ lb) at _____ kPa (_____ psi) cold.

(Mark on tires rated only for single load): Max load _____ kg (_____ lb) at _____ kPa (_____ psi) cold.

FTS describes the noncompliance as its failure to provide accurate load and inflation information as required by FMVSS No. 119. The maximum load rating and corresponding inflation pressure that are erroneously marked on the FTS tires and the correct information for the non-conforming tires are as follows:

295/75R22.5/14 is marked:

Max. Load Single 2800 kg (6175 lbs) at 720 kPa (105 psi) cold.

Max. Load Dual 2650 kg (5840 lbs) at 720 kPa (105 psi) cold.

295/75R22.5/14 should be marked:

Max. Load Single 2800 kg (6175 lbs) at 760 kPa (110 psi) cold.

Max. Load Dual 2575 kg (5675 lbs) at 760 kPa (110 psi) cold.

285/75R24.5/14 is marked:

Max. Load Single 3000 kg (6610 lbs) at 720 kPa (105 psi) cold.

Max. Load Dual 2725 kg (6005 lbs) at 720 kPa (105 psi) cold.

285/75R24.5/14 should be marked:

Max. Load Single 2800 kg (6175 lbs) at 760 kPa (110 psi) cold.

Max. Load Dual 2575 kg (5675 lbs) at 760 kPa (110 psi) cold.

FTS states that the non-compliance of their tires was brought to their attention on June 9, 2009, "when new molds were

ordered and the old molds were compared to the new molds."

FTS also states that it has advised the manufacturer to hold any additional non-conforming tires and to change the inaccurate information before exporting them to the United States.

FTS argues that the inaccurate markings on the tires are inconsequential because the difference between the proper load ranges and inflation pressures are minimal. FTS bases their conclusion on their testing of the subject tires using the inaccurate information noted on their tires, and FTS asserts that the tires "greatly exceed all FMVSS testing result requirements." Specifically, FTS points out that they subjected the tested tires to a modified FMVSS No. 119 endurance test which they state "is far more demanding than the requirements of FMVSS 119."

FTS submitted with their application for exemption from notification and recall a copy of the original Chinese and English translation of the eight endurance test reports. FTS states that "These tests performed using the load inflation information which appears on the subject tires clearly indicates that even at the wrong inflation pressure, these tires greatly exceed FMVSS 119 and are safe." FTS additionally states that "the mislabeling of the tires poses absolutely no safety issue since even if a user of the tires inflates the tire to the load inflation pressure contained on the side wall of the subject tire, we know that the tire greatly exceeds all requirements (i.e. the tires ran almost three times longer than required by FMVSS 119 at loads increased by 10% every ten hours (nine times over 130 hours))."

Based on the foregoing, FTS requests that NHTSA deem this issue as "incidental mislabeling" and that it has no bearing on the safety of the tires, and that FTS be exempted from providing notification as required by 49 U.S.C. 30118 and remedy as required by 49 U.S.C. 30120.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance.
