II. Background

Under the Congressional mandate stated in section 405(b) of Title X, The Residential Lead-Based Paint Hazard Reduction Act of 1992, EPA has established the NLLAP. The program has been established by EPA in order to assure the public that analytical laboratories recognized by the EPA NLLAP have demonstrated they are capable of analyzing for lead in paint chip, dust, and/or soil samples. A list of EPA recognized lead laboratories is updated on a periodic basis and is available from the National Lead Information Center Clearinghouse upon request (1-800-424-LEAD) or at the Office of Pollution Prevention and Toxics Lead Home Page at <http://www.epa.gov/lead/pubs/nllap.htm>.

The Agency is announcing changes to NLLAP to encourage the recognition of all lead testing service providers (e.g., FSMOs) and to bring the NLLAP into compliance with current consensus standards (e.g., American Society for Testing and Materials (ASTM), American National Standards Institute (ANSI), and International Organization for Standardization (ISO)). This may, in turn, increase lead testing options, reduce costs, and save time for those who purchase analytical services related to lead hazard identification and control.

III. What Action is the Agency Taking?

The Agency made these revisions to the NLLAP to provide a vehicle and remove barriers so that all types of lead testing service providers could participate in the NLLAP. These changes also provide the tools for smaller lead testing organizations to obtain NLLAP recognition. Also these revisions are making the NLLAP more efficient and cost-effective while maintaining the high standard of quality, science and technology necessary to ensure public health protection in supporting EPA and U.S. Department of Housing and Urban Development (HUD) lead regulations.

II. Contractor Requirements

Under Contract No. EP-W-05-023 Task Order 36, this contract shall provide enterprise architecture support to the Enterprise Architect for the Information Technology and Resources Management Division. The contractor

requires access to processes and procedures that may contain FIFRA and CBI related data.

This contract involves no subcontractors.

The OPP has determined that the contract described in this document involves work that is being conducted in connection with FIFRA, in that pesticide chemicals will be the subject of certain evaluations to be made under this contract. These evaluations may be used in subsequent regulatory decisions under FIFRA.

Some of this information may be entitled to confidential treatment. The information has been submitted to EPA under sections 3, 4, 6, and 7 of FIFRA and under sections 408 and 409 of FFDCA.

In accordance with the requirements of 40 CFR 2.307(h)(3), the contract with Project Performance Corporation, prohibits use of the information for any purpose not specified in this contract; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires that each official and employee of the contractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the *FIFRA Information Security Manual*. In addition, Project Performance Corporation is required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release or compromise. No information will be provided to Project Performance Corporation until the requirements in this document have been fully satisfied. Records of information provided to Project Performance Corporation will be maintained by EPA Project Officers for this contract. All information supplied to Project Performance Corporation by EPA for use in connection with this contract will be returned to EPA when Project Performance Corporation has completed its work.
