

*Steel Plate in Coils From the Republic of Korea; and Stainless Steel Sheet and Strip in Coils From the Republic of Korea ("Amended Final Determinations")*, 66 FR 45279 (August 28, 2001).

Our *Final Results* erroneously stated that the "all others rate" applicable to exporters or manufacturers who have not been covered in this review or investigated in the original LTFV investigation is 16.26 percent rather than the 6.08 percent established in the *Amended Final Determinations*. Thus, the correct all others rate is the all others rate established in the *Amended Final Determinations*.

The Department's regulations define a ministerial error as an "error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial," citing 19 CFR 351.224(f). Therefore, the Department notes that it is now correcting this ministerial error and stating that the correct all others rate is 6.08 percent, in accordance with the *Amended Final Determinations*.

Therefore, we are amending the final results of the antidumping duty administrative review of stainless steel plate in coils from the Republic of Korea to reflect the correction of the above-cited ministerial error.

No other changes have been made to the cash deposit requirements provided in the *Final Results*.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: April 12, 2002

*Assistant Secretary for Import Administration.*

### National Institute of Standards and Technology

### Advanced Technology Program; Announcement of Public Meetings

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of public meetings (Proposers' Conferences).

**SUMMARY:** The National Institute of Standards and Technology (NIST) invites interested parties to attend public meetings (Proposers' Conferences) to learn more about the Advanced Technology Program (ATP). The format and content of each of the public meetings will be the same. The ATP is a competitive cost-sharing program designed for the Federal government to work in partnership with industry to accelerate the development and broad dissemination of challenging, high-risk technologies that offer the potential for significant commercial payoffs and widespread benefits for the nation. This unique government-industry partnership accelerates the development of emerging or enabling technologies leading to revolutionary new products, industrial processes and services that can compete in rapidly changing world markets. The ATP challenges industry to take on higher risk projects with commensurately higher potential payoff to the nation. The ATP provides multi-year funding to single companies and to industry-led joint ventures.

**DATES:** The public meetings will be held on May 8, 2002 and May 10, 2002 in San Jose, California and Chicago (Rosemont), Illinois, respectively. In addition, on April 18, 2002, ATP announced in the **Federal Register** a Notice of a Proposers' Conference for May 2, 2002, in Gaithersburg, Maryland. All three meetings will be held from 9:30 a.m.-12:30 p.m. local time.

**ADDRESSES:** The meetings will be held at the following three locations: Thursday, May 2, 2002, Gaithersburg Hilton, 620 Perry Parkway, Gaithersburg, Maryland, Tel: 301-977-8900, Fax: 301-977-3450; Wednesday, May 8, 2002, Double Tree Hotel, 2050 Gateway Place, San Jose, California, Tel: 408-453-4000, Fax: 408-437-2898; and Friday, May 10, 2002, Holiday Inn O'Hare International, 5440 North River Road, Chicago (Rosemont), Illinois, Tel: 847-671-6350, Fax: 847-671-5406.

Information on the ATP may be obtained from the following address: National Institute of Standards and Technology, Advanced Technology Program, 100 Bureau Drive, Stop 4701, Administration Building 101, Room A413, Gaithersburg, MD 20899-4701.

Additionally, information on the ATP is available on the Internet at the ATP website <http://www.atp.nist.gov>.
