**Agency Information Collection**

**Activities: Comment Request; Grantee Reporting Requirements for National User Facilities Managed by the NSF Division of Materials Research**

**AGENCY:** National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

**DATES:** Written comments on this notice must be received by May 26, 2020 to be

assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). **SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Grantee Reporting Requirements for National User Facilities managed by the NSF Division of Materials Research.

*OMB Number:* 3145-0234.

*Expiration Date of Approval:* June 30, 2020.

*Type of Request:* Revision to and extension of approval of an information collection.

**Proposed Project**

The NSF Division of Materials Research (DMR) supports a number of National User Facilities that provide specialized capabilities and instrumentation to the scientific community on a competitive proposal basis. In addition to the user program, these facilities support in-house research, development of new instrumentation or techniques, education, and knowledge transfer.

The facilities integrate research and education for students and post-docs involved in experiments, and support extensive K-12 outreach to foster an interest in Science Technology Engineering and Mathematics (STEM) and STEM careers. Facilities capitalize on diversity through participation in center activities and demonstrate leadership in the involvement of groups underrepresented in science and engineering.

National User Facilities will be required to submit annual reports on progress and plans, which will be used as a basis for performance review and determining the level of continued funding. User facilities will be required to develop a set of management and performance indicators for submission annually to NSF via the Research Performance Project Reporting (RPPR) module in *Research.gov*. These indicators are both quantitative and descriptive and may include, for example, lists of successful proposal and users, the characteristics of facility
