

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Summary of Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Identification of Imported Explosives Materials.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: None. Bureau of Alcohol, Tobacco, Firearms and Explosives.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit. Other: None.

Need for Collection

The information is necessary to ensure that explosive materials can be effectively traced. All licensed importers are required to identify by marking all explosive materials they import for sale or distribution. The process provides valuable information in explosion and bombing investigations.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 15 respondents will spend 1 hour placing marks of identification on imported explosives 3 times annually.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 45 annual total burden hours associated with this collection.

If additional information is required contact: Jerri Murray, Department Clearance Officer, Policy and Planning Staff, Justice Management Division, Department of Justice, Two Constitution Square, 145 N Street NE., Room 2E-508, Washington, DC 20530.

Jerri Murray,
Department Clearance Officer, PRA, United States Department of Justice.

BILLING CODE 4410-02-P

DEPARTMENT OF LABOR

Scientific Integrity: Statement of Policy

AGENCY: Office of the Secretary, Labor.

ACTION: Soliciting comments on Department of Labor Draft Policy on Scientific Integrity.

SUMMARY: The United States Department of Labor (DOL) is developing its policy on Scientific Integrity in response to the March 9, 2009, Presidential Memorandum on Scientific Integrity, and the December 17, 2010, Memorandum from the Director of the Office of Science and Technology Policy. DOL is soliciting comments on its draft policy.

FOR FURTHER INFORMATION CONTACT:

E. Christi Cunningham, Associate Assistant Secretary for Regulatory Policy, U.S. Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210, cunningham.christi@dol.gov, (202) 693-5959; (this is not a toll-free number). Individuals with hearing impairments may call 1-800-877-8339 (TTY/TDD).

SUPPLEMENTARY INFORMATION: In March of 2009, the President articulated six principles federal agencies should

follow to preserve and promote scientific integrity. The President also assigned the Director of the Office of Science and Technology Policy (OSTP) with the creation of guidelines for Federal Agencies to ensure the highest level of integrity in all aspects of the science and technological processes. This Scientific Integrity policy establishes standards for DOL for ensuring accuracy and integrity in all scientific activities informing rulemaking and public policy decisions in accordance with the memoranda from the President and OSTP.

Scientific Integrity of DOL scientific personnel is vital to the public interest and critical to conducting DOL's mission. Scientific activities provide data to inform many of DOL's decision makers regarding the production of leading economic indicators, evaluation of programs funded by DOL, protection of the health and safety of our Nation's workers, and implementation of labor laws that address conditions of employment, benefits and compensation.

Request for Comments: As part of our development of the DOL scientific integrity principles, we are soliciting public comments. Your input is important to us. To facilitate receipt of the information, the Department will create an Internet portal specifically designed to capture your input and suggestions, <http://dolscientificintegrity.ideascale.com/>.

This portal will contain a series of questions designed to gather information on how DOL can best meet these requirements. The portal is expected to open to receive comments on April 11, 2012 and accept comments for 30 days. Please provide responses that are supported with specific examples and data, where possible.

DATES: The portal is expected to open to receive comments starting April 11, 2012. Comments would then need to be received before May 11, 2012.

ADDRESSES: You may submit comments through <http://dolscientificintegrity.ideascale.com/>.

All comments will be available for public inspection at <http://dolscientificintegrity.ideascale.com/>.

Questions for the Public: The Department of Labor intends the questions on the portal to represent a starting point for discussion of the scientific integrity principles. The questions are meant to initiate public dialogue, and are not intended to restrict the issues that may be raised or addressed. The questions were developed with the intent to probe a range of areas.
