

the Commission set forth the criteria that each request for delegated authority to implement a SO should address. This will enable us to examine the feasibility of SOs in a particular area, and to determine whether the Commission's stated goals are likely to be met if the SO is implemented. Specifically, state commissions should also specifically address the following:

(1) The technologies or services to be included in the SO;

(2) The geographic area to be covered;

(3) Whether the SO will be transitional;

(4) When the SO will be implemented and, if a transitional SO is proposed, when the SO will become an all-services overlay;

(5) Whether the SO will include take-backs;

(6) Whether there will be 10-digit dialing in the SO and the underlying area code(s);

(7) Whether the SO and underlying area code(s) will be subject to rationing; and

(8) Whether the SO will cover an area in which pooling is taking place.

The Commission uses the information it collects to assist the state commissions in carrying out their delegated authority over numbering resources.

Under the reorganization, ORR proposes to discontinue the use of 6 forms, transfer 10 forms to new information collections associated with Assessments and Home Studies/Post Release Services; and revisions to five existing forms.

The UAC Bureau is requesting to discontinue the use of 6 forms created for the case management system, the UC Path, which was never implemented. Except where indicated below, the UC Path versions of these forms contain features and/or logic not replicated in UAC Portal, and have never been used, thus maintaining these forms is unnecessary. These forms include:
