Maritime Administration Docket

In order to provide the public with alternative means of providing feedback to MarAd in ways that may better suit their needs, we have provided a docket at <http://regs.dot.gov> to allow for submissions to MarAd in a less formal manner. The MarAd Docket provides members of the public who do not wish to make a presentation, cannot make a presentation, or who wish to add other comments, an opportunity to submit their ideas about our Cargo Preference regulatory review.

To ensure that comments are most useful in informing our deliberation and decision process, you should include the docket number (MARAD 2001–0121), the citation to the regulation on which you are commenting (e.g., 46 CFR 381.5), a description of any concerns regarding the regulation, and any supporting information that would assist MarAd in making a decision. To go directly to the Web site use the following link: <http://regs.dot.gov>.

Follow-Up Action by MarAd

Comments received during our review will provide meaningful and significant information for senior MarAd officials assessing the cargo preference regulatory process. The recorded webcast video will remain available following the meeting via a link from our Web site at <http://www.marad.dot.gov>.

Privacy Act Statement

Anyone is able to search all comments entered into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19476, 04/11/2011) or at <http://www.dot.gov/privacy.html>.

SUPPLEMENTARY INFORMATION:

Background

In the August 26, 2011, **Federal Register** (76 FR 53379), we announced the reopening of the comment period for our May 5, 2011, proposed rule (76 FR 26086) to provide for public review and comment of additional information regarding our recognition of the eastern wolf, *Canis lycaon*, as a separate species, including, in particular, a manuscript prepared by Service employees that is currently undergoing review for publication (Chambers *et al.*, in prep.). In recognition of intellectual property right laws, the manuscript made available on August 26 provided readers with references to the sources of nine copyrighted figures, but did not include the figures themselves. We have since obtained approval to include the nine copyrighted figures in the manuscript made available for public review. On September 7, 2011, we posted the manuscript with the nine copyrighted figures at <http://www.regulations.gov> at Docket No. FWS–R3–ES–2011–0029 to replace the version made available on August 26.
