BILLING CODE 4910-9X-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2011-0052]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated August 25, 2011, Norfolk Southern Railway (NS) has submitted information to amend and clarify the scope of a June 14, 2011, petition to the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236. FRA had assigned the petition Docket Number FRA-2011-0052 as published in **Federal Register** (Ref.

Volume 76, No. 135, Thursday, July 14, 2011, Page 41556).

NS seeks a waiver of compliance from the cab signal system requirements found in 49 CFR 236.566, *Locomotive of each train operating in train stop, train control, or cab signal territory; equipped*. Specifically, NS seeks relief to operate nonequipped engines used in switching and transfer service, with or without cars such as work trains, wreck trains, ballast cleaners to and from work, and engines and rail diesel cars moving to and from shops, in the following locations with all movements at restricted speeds not exceeding 15 mph.

1. Operations on the Pittsburgh Line, Harrisburg Division, from CP Cannon at MP-PT 118.9 near Duncannon, PA, to CP Harrisburg at MP-PT 105.1 near Harrisburg, PA.

2. Operations on the Pittsburgh Line, Pittsburgh Division, from CP Cannon at MP-PT 118.9 near Duncannon, PA, to CP Solomon at MP-PT 352.5 near Pittsburgh, PA, with an absolute block to be established in advance of each movement of foreign trains and engines between CP Bloom at MP-PT 351.6 near Pittsburgh, PA, and CP Solomon.

3. Operations on the Fort Wayne Line, Pittsburgh Division, from CP Rochester at MP-PC 29.5, near East Rochester, PA, to CP Alliance at MP-PC 83.2., with an absolute block to be established in advance of each nonequipped movement.

4. Operations on the Conemaugh Line, Pittsburgh Division, from CP Conpit at MP-LC 0.0, near Bolivar, PA, to CP Kiski at MP-LC 47.8, near Freeport, PA, with an absolute block to be established in advance of each nonequipped movement.

NS argues that relief is in the public interest. The waiver of 49 CFR 236.566 requirements in these areas is important to maintaining efficient rail operations in the region. Exemptions have been previously granted for the operation of nonequipped locomotives in cab signal system territory at nearby locations and the relief requested in this application is a consistent extension of those currently granted exceptions.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2010-0100]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated April 29, 2011, the Brownsville & Rio Grande International Railroad (BRG) has

petitioned the Federal Railroad Administration (FRA) for a modification to its waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 232 and 215. FRA assigned the petition Docket Number FRA-2010-0100.

BRG seeks a modification to its waiver of compliance with certain requirements of 49 CFR part 232, *Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices* and 49 CFR part 215, *Railroad Freight Car Safety Standards*. Presently, BRG's relief permits trains transferred by Union Pacific Railroad (UP) (under Waiver Petition Docket Number FRA-2007-28340 from the U.S./Mexico border interchange with the Kansas City Southern De Mexico Railway (KCSM) at Brownsville, Texas) to move from BRG's interchange point with UP at Milepost (MP) 4.48 to the BRG inspection point between MP 8.0 and MP 9.0, where required FRA inspections are performed. Occasionally, trains destined for interchange to BRG are delayed at UP's Olmito Yard by additional Federal agency inspection activities. BRG petitions for a modification to its present relief to allow the railroad to pick up trains at Olmito Yard (in lieu of the interchange point at MP 4.48). On those occasions, BRG would continue to perform the required FRA inspections between MP 8.0 and MP 9.0 in accordance with its present relief under FRA-2010-0100.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at <http://www.regulations.gov> and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave., SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.
