

random sample will be selected from each health plan using a proportionate (uniform) sampling fraction.

Mission sampling frame elements are not expected to be a problem, and anyone excluded from the sampling frame because of missing diagnoses due to claims lags will be considered missing at random because physician and hospital claim lags should be totally independent of cost-related changes in medication-taking behavior.

The sample file will contain an investigator-assigned, study specific case identity code that will allow the survey results file to be linked back to

the administrative data. Checks for changes in address will be made and survey packets prepared. A cover letter from the investigators will invite Medicare beneficiaries enrolled in UnitedHealthcare Medicare+Choice health plans to participate in the study, and a written consent form approved by a duly constituted Institutional Review Board will be sent along with the survey questionnaire. Two mailings with a postcard reminder sent in the interim period and follow-up calls to non-responders after the second survey mailing are planned to obtain a response rate similar to the Medicare Consumers

Assessment of Health Plans Survey response rate of 75% to 82%. Respondents will not receive any gifts or payments as incentives to respond.

#### Estimated Annual Respondent Burden

This is a one-time survey with 24 multiple choice questions, plus one question that asks respondents to name any medication(s) they did not use as prescribed because of cost, plus one question that asks respondents to name the medication(s), if any, that they used as alternative(s) to the medication(s) that cost too much. The survey will be conducted in 2002.

Survey year	Number of respondents	Estimated time per respondent in hours	Estimated total burden hours	Estimated cost to the government
2002 .....	1,125	.25	281	\$35,000

#### Request for Comments

In accordance with the above cited legislation, comments on the AHRQ information collection proposal are requested with regard to any of the following: (a) Whether the proposed collection of information is necessary for the proper performance of functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: May 15, 2002.

**Carolyn M. Clancy,**  
Acting Director.
