Table 2 of this unit includes the name and address of record for the registrant of the products listed in Table 1 of this unit. This number corresponds to the first part of the EPA registration numbers of the products listed above.

TABLE 2.—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION

EPA Company Number	Company Name and Address
524	Monsanto Company 1300 I Street N.W. Suite 450 East East Washington, DC 20005

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or

2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The clofencet registrant has requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

V. Procedures for Withdrawal of Requests

Registrants who choose to withdraw a request for product cancellation or use deletion should submit the withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the action. If the request for voluntary cancellation is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to this request for cancellation of product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 1.

For voluntary product cancellations, registrants will be permitted to sell and distribute existing stocks of voluntarily canceled products for 1 year after the effective date of the cancellation, which will be the date of publication of the cancellation order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the products identified in Table 1, except for export consistent with section 17 of FIFRA or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the *canceled products*.

II. Contractor Requirements

Under these contract numbers, the contractor will perform the following:

Under Contract No. EP10H001162, The contractor shall conduct information gathering session for the purpose of building the Incidents Data System. The contractor will collect and document requirements for an integrated data system and centralized incident data repository. The Contractor will be the primary resource for gathering information from a workgroup formed for the purpose of creating the Incidents Data system. After requirements have been approved, the Contractor shall design and build the Incidents Data System following all EPA-approved application development methodology. The gathering and creation of the system entails exposure to sensitive data in order for the Contractor to understand the complexity of the data and workflow.

These contracts involve no subcontractors. The OPP has determined that the contracts described in this document involve work that is being conducted in connection with FIFRA, in that pesticide chemicals will be the subject of certain evaluations to be made under this contract. These evaluations may be used in subsequent regulatory decisions under FIFRA.

Some of this information may be entitled to confidential treatment. The information has been submitted to EPA under sections 3, 4, 6, and 7 of FIFRA and under sections 408 and 409 of FFDCA.

In accordance with the requirements of 40 CFR 2.307(h)(3), the contracts with Avaya Government Solutions, prohibits use of the information for any purpose not specified in these contracts; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires

that each official and employee of the contractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the *FIFRA Information Security Manual*. In addition, Avaya Government Solutions is required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release or compromise.

No information will be provided to Avaya Government Solutions until the requirements in this document have been fully satisfied. Records of information provided to Avaya Government Solutions will be maintained by EPA Project Officers for these contracts. All information supplied to Avaya Government Solutions by EPA for use in connection with these contracts will be returned to EPA when Avaya Government Solutions has completed its work.
