

(1) The amount and diversity of vegetation in some locations are less than the current capability of soils.

(2) Sediment delivery to drainages supporting fisheries, and retention of precipitation on uplands, as evidenced by headcutting/gullies and sign of active erosion.

(3) Wildlife values within some aspen stands are minimized by a lack of diverse aspen age classes; in some locations the diversity of herbaceous and shrub species in the understory is also diminished.

Scoping Process

The first formal opportunity to respond to the proposed action listed above is during the public scoping process (40 CFR 1501.7) which begins with the issuance of this Notice of Intent. Scoping letters will be sent to the forest mailing list of known interested parties and news releases will be made encouraging public to provide comments and input into the project. The scoping process will assist the forest in identifying specific issues to be addressed related to the purpose and need and the scope of the decision. Mail comments to the addresses given above. Ongoing information related to the proposed action and related analysis will be posted on the Bridger-Teton National Forest Web site <http://www.fs.fed.us/r4/btnf>.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement (DEIS) will be prepared for comment. The comment period on the DEIS will be for a period of 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a DEIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the DEIS stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (ED. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed

action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the DEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the DEIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points. Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

SUPPLEMENTARY INFORMATION:**Postponement of Preliminary Determinations**

On July 14, 2008, the Department of Commerce (the Department) initiated the antidumping duty investigation on Certain Tow Behind Lawn Groomers and Certain Parts Thereof from the People's Republic of China. *See Certain Tow Behind Lawn Groomers and Certain Parts Thereof From the People's Republic of China: Initiation of Antidumping Duty Investigation*, 73 FR 42315 (July 21, 2008). The notice of initiation stated that the Department would issue the preliminary determination for this investigation no later than 140 days after the date of issuance of the initiation, in accordance with section 773(b)(1)(A) of the Tariff Act of 1930, as amended (the Act).

On November 5, 2008 the petitioner, Agri-Fab Inc., made a timely request pursuant to 19 CFR 351.205(b)(2) and (e) for a 50-day postponement of the preliminary determination. The petitioner requested postponement of the preliminary determination due to the complexity of the investigation.

For the reasons identified by the petitioner and because there are no compelling reasons to deny the request, the Department is postponing the deadline for the preliminary determination under section 773(c)(1)(A) of the Act by 50 days. Because the extended deadline, January 20, 2009, falls on a federal holiday, the deadline for the preliminary determination will be the next business day, Wednesday, January 21, 2009. *See* 19 CFR 351.303(b). SUPPLEMENTARY INFORMATION: On October 10, 2007, notice was published in the *Federal Register* (72 FR 57523) that an amendment of Permit No. 532-1882-02, issued July 17, 2006, had been requested by the above-named individual. The requested amendment has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The purpose of the amendment is to obtain distribution and movement data of southern resident killer whales during the spring, fall, and winter months via satellite tagging. The permit amendment authorizes the tagging of up to 6 individual adult or sub-adult male southern resident killer whales per year, three of which may be re-tagged per year, throughout the inland waters of Washington and the coastal waters of Washington, Oregon, and California. No more than 12 individuals are authorized to be tagged for the duration of the permit. The permit will expire on April 14, 2011.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment was prepared analyzing the effects of the permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: November 10, 2008.
