

will undertake the following actions: (1) Implement a prescribed fire program designed to maintain and enhance pine stand characteristics suitable for the Woodpecker; (2) implement forest management actions to enhance existing pine stocking densities and reduce hardwood canopies; (3) enhance future pine stocking densities by planting; (4) enhance existing Woodpecker clusters through construction of artificial cavities; (5) create potential new cluster sites using artificial cavity inserts; and (6) translocate individual Woodpeckers within the enrolled property to enhance pair-bond formation and establish new groups.

The Applicant's property currently supports seven clusters of Woodpeckers. Conservation measures proposed by the Applicant will enhance existing habitat conditions and contribute to the continued survival of the seven Woodpecker clusters currently residing on the property. In addition, the Applicant intends to similarly manage unoccupied habitat in a similar manner that will create suitable habitat for Woodpeckers. The Applicant anticipates that the proposed conservation measures will lead to additional groups of Woodpeckers inhabiting the enrolled property. Without the proposed Agreement, it would not be possible for the Applicant to undertake the proposed conservation measures and receive regulatory assurances from the Service through the Endangered Species Act.

Consistent with the Service's Safe Harbor policy and implementing regulations, we propose to issue a permit to the Applicant authorizing the incidental take of Woodpeckers, that occur on the enrolled lands through lawful activities on the enrolled land, as long as baseline conditions are maintained and terms of the Agreement are implemented. Future activities of the Applicant could result in a return to the baseline condition, but the Applicant has indicated that a return to baseline condition is not anticipated.

This Notice also advises the public that the Service has made a preliminary determination that issuance of the enhancement of survival permit will not result in significant impacts to the human environment and is, therefore, categorically excluded from review under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4331 *et seq.*) (NEPA), pursuant to 516 Departmental Manual 2, Appendix 1 and 516 Departmental Manual 6, Appendix 1. This Notice is provided pursuant to Section 10 of the Endangered Species Act. The Service

specifically requests information, views, and opinions from the public.

We will evaluate the proposed Agreement, associated documents, and comments submitted by the public to determine whether the requirements of Section 10(a) of the Endangered Species Act and NEPA regulations have been met. If we determine that the requirements are met, we will issue an enhancement of survival permit under Section 10(a)(1)(A) of the Endangered Species Act to the Applicant in accordance with the terms of the Agreement and specific terms and conditions of the authorizing permit. We will not make our final decision until the end of the 30-day comment period and will fully consider all comments received during the comment period.

Dated: October 18, 2006.

Southeast Region, Acting Regional Director.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 332-478]

U.S.-China Trade: Implications of U.S.-Asia-Pacific Trade and Investment Trends

AGENCY: United States International Trade Commission.

ACTION: Institution of investigation and scheduling of hearing.

DATES: *Effective Date:* November 1, 2006.

SUMMARY: Following receipt of a request letter on October 2, 2006, from the Committee on Ways and Means of the U.S. House of Representatives (Committee) under section 332(g) of the Tariff Act of 1930 (19 U.S.C. (332(g))), the U.S. International Trade Commission (Commission) instituted investigation No. 332-478, *U.S.-China Trade: Implications of U.S.-Asia-Pacific Trade and Investment Trends*.

Background: In its October 2, 2006 letter, the Committee requested that the Commission prepare three reports with respect to U.S.-China trade, with the first report to be delivered 12 months after receipt of the letter and the second and third reports, 18 and 24 months after receipt of the letter, respectively. This notice announces institution of the first of three investigations for the

purpose of preparing the requested reports. The Commission will issue separate notices relating to the second and third reports at a later date (see below).

As requested by the Committee, in its first report the Commission will analyze the principal trends and patterns in trade and foreign direct investment (FDI) between Asia-Pacific countries and the United States and their implications for the U.S.-China trade relationship. The report will include: (1) A discussion of the main factors influencing these trends; (2) an in-depth examination of the industries that have had a major effect on trade and investment patterns in recent years; and (3), if required, formal quantitative analyses that may help explain these trends and provide an assessment of the reliability of the data used in each analysis. The report will also review the relationship between international trade and FDI, the trade and investment policies in the major countries of the region, and their effect on economic activity both on a global scale and within the Asian and Pacific region. The Commission will provide its first report to the Committee by October 2, 2007.

The Committee also directed that the Commission provide two other reports on U.S.-China trade. For the second report, the Committee asked the Commission to investigate the driving factors behind the rapid growth in U.S.-China trade. The Commission expects to initiate the investigation relating to this report in April 2007 and to provide its report to the Committee by April 2, 2008.

For the third report, the Committee asked the Commission to provide an in-depth examination of China's integration with the global economy through processing trade and FDI, and its implications for U.S.-China trade and investment. The Commission expects to initiate the investigation relating to this report in October 2007 and to provide its report to the Committee by October 2, 2008.
