**Notice of Inventory Completion:  
University of California, Davis, Davis,  
CA**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the University of California (UC Davis) has completed an inventory of associated funerary objects and has determined that there is a cultural affiliation between the associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

**DATES:** Repatriation of the associated funerary objects in this notice may occur on or after May 19, 2025.

**ADDRESSES:** Megon Noble, NAGPRA Project Manager, University of California, Davis, 412 Mrak Hall, One Shields Avenue, Davis, CA 95616, telephone (530) 752-8501, email [mnoble@ucdavis.edu](mailto:mnoble@ucdavis.edu).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of UC Davis and additional information on the determinations in this notice, including the results of consultation, can be found in the inventory or related records. The National Park Service is not responsible for the determinations in this notice.

**Abstract of Information Available**

Based on the information available, there are a total of 1,159 lots of associated funerary objects (five of which are currently missing). The associated funerary objects are associated with human remains previously removed and reburied at the site. The 1,154 lots of present associated funerary objects are one lot of modified wood, three lots of modified clay, five lots of abraders, eight lots of charcoal, 16 lots of soil samples, 26 lots of groundstone, 47 lots of shell, 63 lots of miscellaneous organic items (seeds and wood), 80 lots of worked bone, 101 lots of projectile points, 138 lots of faunal bone, and 666 lots of chipped stone. The five lots of currently missing associated funerary objects are two lots of worked bone, one lot of quartz crystal, one lot of turtle bone, and one lot of unidentified missing material. Trudy

Vaughn of Coyote & Fox Enterprises first excavated site CA-SHA-1048, located south of Redding, California, on April 26, 2005. The site was excavated again by Far Western Anthropological Research Group under Bill Hildebrandt's direction in July and August, 2005 in anticipation of the construction of a residential development. Accession 519 is comprised of materials from both excavations. The University is unaware of any treatment of the associated funerary objects with pesticides, preservatives, or other substances that represent a potential hazard to the objects or to persons handling the objects.

**Cultural Affiliation**

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the associated funerary objects described in this notice.

**Determinations**

UC Davis has determined that:

- The 1,159 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a reasonable connection between the associated funerary objects described in this notice and the Grindstone Indian Rancheria of Wintun-Wailaki Indians of California; Paskenta Band of Nomlaki Indians of California; Redding Rancheria, California; and the Round Valley Indian Tribes, Round Valley Reservation, California.

**Requests for Repatriation**

Written requests for repatriation of the associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the associated funerary objects in this notice to a requestor may occur on or after May 19, 2025. If competing requests for repatriation are received, UC Davis must determine the most appropriate requestor prior to repatriation. Requests

for joint repatriation of associated funerary objects are considered a single request and not competing requests. UC Davis is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

**ADDRESSES:** Eric Anderson, U.S. Fish and Service, Ridgefield National Wildlife Refuge Complex, P.O. Box 457, Ridgefield, WA 98642, telephone (360) 887-4106, Ext. 11126, email [eric\\_anderson@fws.gov](mailto:eric_anderson@fws.gov).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Ridgefield National Wildlife Refuge Complex, and additional information on the determinations in this notice, including the results of consultation, can be found in the summary or related records. The National Park Service is not responsible for the determinations in this notice.

**Abstract of Information Available**

A total of 98 cultural items have been requested for repatriation. The 98 unassociated funerary objects consist of a stone anchor, bracelets, metal buttons, a carved stone effigy, glass trade beads, hammerstones, mauls, stone net sinkers, projectile points, metal rings, and a metal knob. The items listed were collected over the years by Jim Carty on his family farm in Clark County Washington. The family sold the farm to the U.S. Fish and Wildlife Service in 1965, and it became part of the Ridgefield National Wildlife Refuge. In 1976, Jim Carty donated the collection to the Refuge. Mr. Carty listed objects as coming from a "burial site." In 1993, most of the collection was loaned to Portland State University where it is still housed. The remaining portion of the collection is held by the U.S. Fish and Wildlife Service.

The Confederated Tribes of the Grand Ronde Community of Oregon and Cowlitz Indian Tribe have joined with the Chinook Nation to establish the Lower Columbia River NAGPRA Consortium to work together on this NAGPRA repatriation.

**Determinations**

The Ridgefield National Wildlife Refuge Complex has determined that:

- The 98 unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a reasonable connection between the cultural items described in this notice and the Confederated Tribes of the Grand Ronde Community of Oregon and the Cowlitz Indian Tribe.

**Claims for Repatriation**

Additional, written requests for repatriation of the cultural items in this notice must be sent to the appropriate official identified in this notice under

**ADDRESSES.** Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native

Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after May 19, 2025. If competing requests for repatriation are received, the Ridgefield National Wildlife Refuge Complex must determine the most appropriate claimant prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Ridgefield National Wildlife Refuge Complex is responsible for sending a copy of this notice to the lineal descendants, Indian Tribes, and Native Hawaiian organizations identified in this notice and to any other consulting parties.
