424 Short Organizational form; however, it was determined that the partial SSN is not useful for processing the SF–424 Short Organizational form by the Agencies. Therefore, no portion

of the SSN will be collected as part of the electronic grant application process. Frequency of data collection varies by Federal agency.

Proposed Project: Evaluation of HIV Prevention Program for Women—OMB No. 0990—New-Office on Women’s Health (OWH).

Abstract: The Office on Women’s Health (OWH) is seeking a new clearance to conduct data collection activities associated with the three-year evaluation of HIV/AIDS prevention programs at minority institutions for college women. The evaluation will assess the effectiveness of gender-centered HIV prevention models employed to address the needs of college women attending six (6) Historically Black Colleges and

Universities, four (4) Hispanic Serving Institutions, and two (2) Tribal Colleges and Universities. Evaluation data will assess the extent to which gender sensitive interventions employed by these institutions impact HIV/AIDS related knowledge, attitudes, and risk behaviors. Results of the evaluation will identify the prevention outcomes for college women and the larger campus population.

The program goals are to (1) Identify effective methods to educate and increase awareness for prevention of HIV/AIDS and STDs; (2) develop capacity for young, minority women to address prevention education on campus; (3) establish partnerships and student organizations to increase health education, risk reduction, counseling, HIV/STD testing and (4) to ensure that the education is culturally and linguistically appropriate for young, minority women. HIV intervention recipients will complete a survey at pretest, post-test, and follow-up that assesses their HIV/AIDS knowledge, risk behaviors and gender specific attitudes. Student data will be submitted on a quarterly basis. Peer facilitators/health educators will participate in a yearly interview and project implementation staff will participate in individual interviews twice during each program year that assesses their experiences with the program.

Proposed Project: SF–424 Individual—Revision—OMB No. 4040–0005—Grants.gov.

Abstract: This is a request for a revision of a previously approved collection. It is a simplified, alternative government-wide data set and application cover page for use by Federal grant-making agencies that award grants to individuals. The form is being revised with changes to the data field that collects the Social Security Number (SSN). The SSN field is an optional field. The current collection pre-fills the first five digits with “xxx–xx” and only collects the last four digits of the SSN. At OMB's request, we reviewed the usefulness of collection of a portion of the SSN, by polling the Agencies that used the SF–424 Individual form; however, it was determined that the partial SSN is not useful for processing the SF–424 Individual form by the Agencies. Therefore, no portion of the SSN will be collected as part of the electronic grant application process. Frequency of data collection varies by Federal agency.
