Intergovernmental Review: This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

Regulatory Flexibility Act Certification: The Secretary certifies that these proposed priorities and requirements would not have a significant economic impact on a substantial number of small entities. Participation in the SPDG program is voluntary. In addition, the only eligible entities for this program are SEAs, which do not meet the definition of a small entity. For these reasons, the proposed priorities and requirements would not impose any additional burden on small entities. We expect that in determining whether to apply for SPDG program funds, an eligible entity would evaluate the requirements of preparing an application and any associated costs and weigh them against the benefits likely to be achieved by receiving an SPDG program grant. An eligible entity probably would apply

only if it determines that the likely benefits exceed the costs of preparing an application.

We believe that these proposed priorities and requirements would not impose any additional burden on a small entity applying for a grant than the entity would face in the absence of the proposed action. That is, the length of the applications those entities would submit in the absence of the proposed regulatory action and the time needed to prepare an application would likely be the same.

This proposed regulatory action would not have a significant economic impact on a small entity once it receives a grant because it would be able to meet the costs of compliance using the funds provided under this program. We invite comments from eligible small entities as to whether they believe this proposed regulatory action would have a significant economic impact on them and, if so, request evidence to support that belief.

Paperwork Reduction Act of 1995

These proposed priorities and requirements contain information collection requirements that are approved by OMB under OMB control number 1820-0028. The proposed priorities and requirements do not affect the currently approved data collection.

Synopsis

1. Having addressed the issues concerning the reinstatement of the Form 395–B data collection, we now seek, by this Second Further Notice of Proposed Rulemaking (*Second FNPRM*), to refresh the existing record regarding the statutorily mandated collection of Form 395–A data pursuant to 47 U.S.C. 554(d)(3)(A)–(B). Since 1984 the Commission has required MVPDs with six or more full-time employees to file the FCC Form 395–A. Similar to the Form 395–B collected from broadcasters, Form 395–A seeks to gather workforce composition data from multichannel video programming distributors (MVPDs) on an annual basis. The Commission suspended the filing of Form 395–A in 2001 in the wake of the decision by the U.S. Circuit Court of Appeals for the *District of Columbia Circuit in MD/DC/DE Broadcasters Associations v. FCC (MD/DC/DE Broadcasters)*, which vacated certain aspects of the Commission’s EEO requirements for broadcasters. While the similar requirements for MVPDs have never been challenged, the Commission suspended the collection of both Forms 395–A and B, along with various EEO
