Notice of Intent To Prepare a Supplemental Environmental Impact Statement and a Resource Management Plan Amendment, and Notice of Segregation for the Proposed First Solar South Project Near Primm in Clark County, NV

AGENCY: Bureau of Land Management,
Interior.

ACTION: Notice of Intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), the Bureau of Land Management (BLM), Las Vegas Field Office (LVFO), will prepare a Supplemental Environmental Impact Statement (EIS) and a proposed amendment to the Las Vegas Resource Management Plan (RMP) for a proposed solar energy project located on public lands in Clark County, Nevada. Publication of this notice initiates the scoping process to solicit public comments and identifies issues for both actions. Publication of this notice also serves to segregate the identified lands from appropriation under the public land laws, including location under the Mining Law, but not the Mineral Leasing Act or the Materials Act, subject to valid existing rights.

DATES: This notice initiates the public scoping process. Comments on issues may be submitted in writing until October 31, 2011. The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through local news media and the BLM Web site at: <http://www.blm.gov/nv/st/en/fo/lvfo.html>. A temporary segregation of the lands identified herein is effective immediately upon publication of this notice in the **Federal Register**.

SUPPLEMENTARY INFORMATION: Silver
State Solar, LLC, has submitted a right-
of-way (ROW) application for the
construction, operation, maintenance,
and termination of a solar energy
generation facility on 13,043 acres of
public land east of Primm, Nevada. The
ROW application is assigned BLM case
number NVN-089530. This application
expands on ROW application NVN-
085801. The proposed solar energy
project would consist of photovoltaic
panels and related ROW appurtenances,
including a substation and switchyard
facilities, and would produce about 400
megawatts of electricity.

The Supplemental EIS will address
new information associated with NVN-
089530 and update as necessary the
consideration of NVN-085801, which
was analyzed in the Final EIS for the
Silver State Solar Energy Project. The
Record of Decision signed October 12,
2010 for the Silver State Solar Energy
Project did not authorize all phases of
application NVN-085801.

Approval of ROW application NVN-
089530 will require amendment of the
October 1998 Las Vegas RMP in order to

address proposed changes in land and
resource use within the Jean Lake/Roach
Lake Special Recreation Management
Area (SRMA). The purpose of the public
scoping process is to determine relevant
issues that will influence the scope of
the environmental analysis, including
alternatives, and guide the process for
developing the Supplemental EIS. At
present, the BLM has identified the
following preliminary issues: Impacts to
threatened and endangered species,
visual resources, recreation and off-
highway vehicle use; and
socioeconomic and cumulative impacts.
The Supplemental EIS will analyze the
site-specific impacts on air quality,
biological resources, cultural resources,
special designations (SRMA), water
resources, geological resources and
hazards, hazardous materials handling,
land and airspace use, noise,
paleontological resources, public health,
socioeconomics, soils, traffic and
transportation, visual resources,
wilderness characteristics, waste
management, worker safety, and fire
protection; as well as facility-design
engineering, efficiency, reliability,
transmission-system engineering,
transmission line safety, and nuisance
issues.

By this notice, the BLM is complying
with requirements in 43 CFR 1610.2(c)
to notify the public of potential
amendments to land use plans. The
BLM will integrate the land use
planning process with the NEPA
process for this project. The BLM will
utilize and coordinate the NEPA
commenting process to satisfy the
public involvement process for Section
106 of the National Historic
Preservation Act (16 U.S.C. 470(f)) as
provided for in 36 CFR 800.2(d)(3).
Native American tribal consultations
will be conducted in accordance with
policy. Tribal concerns will be given
due consideration, including impacts on
Indian trust assets. Federal, State, and
local agencies, as well as individuals or
organizations that may be interested in
or affected by the BLM's decision on
this project, are invited to participate in
the scoping process and, if eligible, may
request or be requested by the BLM to
participate as a cooperating agency.

Before including your address, phone
number, e-mail address, or other
personal identifying information in your
comment, you should be aware that
your entire comment—including your
personal identifying information—may
be made publicly available at any time.
While you can ask us in your comment
to withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Segregation of Lands: An Interim Rule, published in the **Federal Register** (76 FR 23198) on April 26, 2011, amended the BLM regulations found in 43 CFR parts 2090 and 2800 to provide provisions to allow the BLM to temporarily segregate from the operation of the public land laws, by publication of a **Federal Register** notice, public lands included in a pending solar energy generation ROW application in order to promote the orderly administration of the public lands. Upon segregation under the Interim Rule, such lands will not be subject to appropriation under the public land laws, including location under the Mining Law of 1872 (but not the Mineral Leasing Act or the Materials Act), subject to valid existing rights, for a period of up to 2 years.

This segregation is warranted to allow for the orderly administration of the public lands to facilitate the development of valuable renewable resources and to avoid conflicts between renewable energy generation and mining claims. This temporary segregation does not affect valid existing rights in mining claims located before this segregation notice. Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature which would not impact lands identified in this notice may be allowed with the approval of an authorized officer of the BLM during the segregative period.

The lands segregated under this Notice are legally described as follows:

The area described contains 13,043.20 acres, more or less, in Clark County, Nevada.

The BLM intends to resurvey T. 27 S., R. 59 E., sec. 3, lots 1 through 3. The description will be replaced for those lands upon final approval of the official plat of survey. The segregation of lands identified in this notice will not exceed 2 years from the date of publication. Termination of the segregation, as provided in the Interim Rule, is the date that is the earliest of the following: Upon issuance of a decision by the authorized officer granting, granting with modifications, or denying the application for a ROW; automatically at the end of the 2 year segregation; or upon publication of a **Federal Register** notice of termination of the segregation. Upon termination of segregation of these lands, all lands subject to this segregation will automatically reopen to appropriation under the public land laws.
