conducted an environmental assessment of this rule. The assessment concludes that there will be no significant impact on the human environment as a result of the issuance of this final rule, and no Environmental Impact Statement will be prepared. Copies of the environmental assessment and Finding of No Significant Impact are on file for inspection through the Rules Docket Clerk, Federal Emergency Management Agency, room 840, 500 C St. SW., Washington, DC 20472.

Executive Order 12866, Regulatory **Planning and Review**

We have prepared and reviewed this rule under the provisions of E.O. 12866, Regulatory Planning and Review. Under Executive Order 12866, 58 FR 51735, October 4, 1993, a significant regulatory action is subject to OMB review and the requirements of the Executive Order. The Executive Order defines "significant regulatory action" as one that is likely to result in a rule that may:

(1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities:

(2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

For the reasons that follow we have concluded that the rule is neither an

economically significant nor a significant regulatory action under the Executive Order. The rule would result in a modest increase in premiums for Vzone, pre-FIRM buildings and their contents. The adjustment in premiums rates will increase by slightly less than \$3 million the amount of premium collected and deposited in the National Flood Insurance Fund each year. It will not have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, the insurance sector, competition, or other sectors of the economy. It will create no serious inconsistency or otherwise interfere with an action taken or planned by another agency. It will not materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof. Nor does it raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

The Office of Management and Budget has not reviewed this rule under the provisions of Executive Order 12866.

Paperwork Reduction Act

This rule does not contain a collection of information and is therefore not subject to the provisions of the Paperwork Reduction Act.

Executive Order 13132. Federalism

Executive Order 13132 sets forth principles and criteria that agencies must adhere to in formulating and implementing policies that have federalism implications, that is, regulations that have substantial direct effects on the States, or on the distribution of power and responsibilities among the various

levels of government. Federal agencies must closely examine the statutory authority supporting any action that would limit the policymaking discretion of the States, and to the extent practicable, must consult with State and local officials before implementing any such action.

We have reviewed this rule under E.O.13132 and have determined that the rule does not have federalism implications as defined by the Executive Order. The rule would adjust the premiums for pre-FIRM buildings in Vzone areas. The rule in no way that we foresee affects the distribution of power and responsibilities among the various levels of government or limits the policymaking discretion of the States.
