

DEPARTMENT OF ENERGY**Bonneville Power Administration****Chief Joseph Hatchery Program**

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of availability of Record of Decision (ROD).

SUMMARY: This notice announces the availability of the ROD to implement the proposed action identified in BPA's Chief Joseph Hatchery Program Environmental Impact Statement (DOE/EIS-0384, November 2009). BPA has decided to fund the construction, operation, and maintenance of the Chief Joseph Hatchery and associated facilities in Okanogan County, Washington and adopt the mitigation measures in the Mitigation Action Plan. All practicable means to avoid or minimize environmental harm are adopted. The hatchery program will produce juvenile Chinook salmon and will help mitigate for the effects of the Federal Columbia River Power System on fish and wildlife by enhancing Chinook populations below Chief Joseph Dam in the Okanogan River subbasin and upper middle Columbia River subbasin, and by complementing other on-going salmon protection and mitigation measures. The U.S. Army Corps of Engineers (USACE), the operator of the Chief Joseph Dam, is a Federal cooperating agency under NEPA; the Confederated Tribes of the Colville Reservation are the project sponsors and will own and operate the Chinook salmon production program and hatchery facilities. The National Oceanic and Atmospheric Administration's National Marine Fisheries Service, the U.S. Fish and Wildlife Service; and the State of Washington's Department of Fish and Wildlife were consulted during the development of the EIS. BPA is issuing this ROD for its actions only; the USACE will issue its own separate ROD.

ADDRESSES: Copies of the ROD and EIS may be obtained by calling BPA's toll-free document request line, 1-800-622-4520. The ROD and EIS Summary are also available on our Web site, <http://www.efw.bpa.gov>.

FOR FURTHER INFORMATION, CONTACT: Mickey Carter, Bonneville Power Administration—KEC-4, P.O. Box 3621, Portland, Oregon 97208-3621; toll-free telephone number 1-800-622-4519; fax number 503-230-5699; or e-mail macarter@bpa.gov.

Issued in Portland, Oregon, on March 18, 2010.

Stephen J. Wright,

Administrator and Chief Executive Officer.

FEDERAL COMMUNICATIONS COMMISSION**Notice of Public Information Collection Being Reviewed by the Federal Communications Commission, Comments Requested**

March 22, 2010.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, 44 U.S.C. 3501-3520. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Persons wishing to comment on this information collection should submit comments on or before May 28, 2010. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget (OMB), via fax at (202) 395-5167, or via the Internet at Nicholas_A_Fraser@omb.eop.gov and to [insert PRA staff member's name],

Federal Communications Commission (FCC). To submit your PRA comments by e-mail send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418-0214. For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Judith B. Herman, 202-418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control No: 3060-0261.

Title: Section 90.215, Transmitter Measurements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 184,655 respondents; 409,048 responses.

Estimated Time Per Response: .033 hours

Frequency of Response: Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. section 303(f).

Total Annual Burden: 13,499 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: N/A.

Need and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this comment period in order to obtain the full three year clearance from them. There is a 8,451 hour increase in this submission which is due to re-calculations of the Commission's previous estimates.

Section 90.215 requires station licensees to measure the carrier frequency, output power, and modulation of each transmitter authorized to operate with power in excess of two watts when the transmitter is initially installed and when any changes are made which would likely affect the modulation characteristics. Such measurements, which help ensure proper operation of transmitters, are to be made by a qualified engineering measurement service, and are required to be retained in the station records, along with the name and address of the engineering measurement service, and the person making the measurements.

The information is normally used by the licensee to ensure that equipment is operating within prescribed tolerances. Prior technical operation of transmitters helps limit interference to other users
