Animal and Plant Health Inspection Service

Title: Citrus Canker; Interstate Movement of Regulated Nursery Stock and Fruit from Quarantined Areas.

OMB Control Number: 0579-0317.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701, *et seq.*), the Secretary of Agriculture, either independently or in cooperation with the States, is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to or widely distributed throughout the United States. The interstate movement of nursery stock from an area quarantined for citrus canker poses an extremely high risk of spreading citrus canker outside the quarantined area. The Animal and Plant Health Inspection Service (APHIS) has regulations in place to prevent the interstate spread of citrus canker. These regulations, contained in 7 CFR 301.75, restrict the interstate movement of regulated articles from and through quarantined areas and prohibit the interstate movement of regulated nursery stock from a quarantined area.

Need and Use of the Information: APHIS uses compliance agreements, limited permits, certificates, and appeal processes to control the movements. Failure to collect required information for the documents could result in severe economic loss to the citrus industry due to the spread of the citrus canker disease.
