

invited to participate as cooperating agencies. The public and interest groups have been provided opportunities to participate during formal comment periods and during Steens Mountain Advisory Council meetings.

The Final EIS evaluates six alternative management approaches including a No Action Alternative. A Preferred Alternative is proposed in the Final EIS. The three features of the Preferred Alternative are: (1) The Full Treatment Alternative would be implemented in all portions of the project area including WSAs, but excluding Steens Mountain Wilderness; (2) The Continuation of Current Management Alternative would be selected for the Steens Mountain Wilderness; (3) Future proposals in Steens Mountain Wilderness would be in conformance with the Steens Act and the Wilderness Act.

Copies of the Final EIS have been sent to affected Federal, State, Tribal and local government agencies and to interested parties. The Final EIS is available for public inspection at the BLM Burns District Office in Hines, Oregon, during regular business hours (7:45 a.m. to 4:30 p.m., Monday through Friday, except holidays). Comments received from the public and internal BLM review comments on the Draft EIS were incorporated into the Final EIS, where appropriate.

Public input during scoping as well as internal scoping identified at least 20 issues for analysis in the EIS. These issues are outlined in Chapter 1 of the Final EIS.

Opportunities for public involvement to date in the process have included two separate public scoping periods, a 45-day comment period on the Draft EIS which included two public meetings. In addition, the Steens Mountain Advisory Council has participated in the process and made a specific recommendation which supports the Preferred Alternative.

Public comments on the Draft EIS received during the 45-day comment period were reviewed by BLM specialists and cooperating agencies. Responses to public comments as well as summarized versions of the public comments are included in the Final EIS. Changes to the EIS made between Draft and Final were based on public comments and internal review. Meetings were held and coordination has been conducted with Harney County Commissioner, Oregon Department of Fish and Wildlife, U.S. Fish and Wildlife Service Malheur National Wildlife Refuge, U.S. Fish and Wildlife Service Ecological Services, Oregon Department of Environmental Quality, Eastern Oregon Agricultural

Research Center, Burns Paiute Tribe, and Harney Soil and Water Conservation District.
