Title: 7 CFR Part 1744, Subpart B, "Lien Accommodations and Subordination Policy"

OMB Control Number: 0572-0126

Type of Request: Extension of a currently approved information collection.

Abstract: Recent changes in the telecommunications industry, including deregulation and technological developments, have caused RUS borrowers and other organizations providing telecommunications services in rural areas to consider undertaking projects that provide new telecommunications services and other telecommunications services not ordinarily financed by RUS. Although some of these services may not be eligible for financing under the Rural Electrification Act of 1936 (RE Act), these services may nevertheless advance RE Act objectives where the borrower obtains financing from private lenders. To facilitate the financing of those projects and services, this program helps to facilitate funding from non-RUS sources in order to meet the growing capital needs of rural Local Exchange Carriers (LECs).

The information collected for lien accommodation requests is used by RUS to ascertain a borrower's level of

financial strength and, upon agency approval of the lien accommodation, ensures that the government's loan security interest is protected.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .50 hour per response.

Respondents: Business or other for-profit and non-profit institutions.

Estimated Number of Respondents: 3.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 2.

Copies of this information collection can be obtained from MaryPat Daskal, Program Development and Regulatory Analysis, at (202) 720-7853, FAX: (202) 720-8435. Email: MaryPat.Daskal@wdc.usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: January 13, 2014.

Administrator, Rural Utilities Service.

The ASF is an option for grantees for the establishment or reorganization of general-purpose zones and can permit significantly greater flexibility in the designation of new "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the Board's standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally docketed on February 4, 2014.

FTZ 104 was approved by the Board on April 18, 1984 (Board Order 256, 49 FR 17789, 04/25/84) and reorganized
