AGENCY: Office of the Chief Financial Officer, Office of Personnel Management.

ACTION: Notice of a New System of Records.

SUMMARY: In accordance with the Privacy Act of 1974, the Office of Personnel Management (OPM) proposes to add a new system of records, titled "OPM/Internal-23 Financial Management Records." This system of records contains financial records that OPM collects, maintains, and uses to manage its critical financial responsibilities. This system of records will be included in OPM's inventory of record systems.

DATES: Please submit comments on or before June 2, 2021. This new system is effective upon publication in today's **Federal Register**, with the exception of the routine uses, which are effective June 7, 2021.

ADDRESSES: You may submit written comments via the Federal Rulemaking Portal: <http://www.regulations.gov>. All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

SUPPLEMENTARY INFORMATION: The Office of Personnel Management (OPM) is establishing the OPM/Internal 23 Financial Management Records system of records in order to clarify and

provide greater transparency regarding its financial records. OPM's Office of the Chief Financial Officer (OCFO) uses the records covered by this SORN in support of its financial management responsibilities, and to successfully implement OPM OCFO's internal and external budget and finance responsibilities.

The records in this system of records are used to meet accounting and financial reporting requirements and are a comprehensive source of financial, budget, and performance information to OPM program offices. They include records pertaining to purchasing, accounts receivables, accounts payable, disbursements, and other budget activities. The records are used for billing and collection, project costing, and funds control as well as to update budgets, financial plans, and the general ledger. The records are also critical to required financial auditing and reporting requirements.

The records include those that are used to support the acquisition management lifecycle, from requisitioning through source selection, award, post award management, blanket purchase agreements, interagency agreements, and closeout.

This system of records does not include those records used to administer the pay, leave, and travel requirements of OPM or the administration of the fare subsidy program, which are included in the OPM Internal-5 Pay, Leave, and Travel system of records. It also does not include records that are used to enable travel service providers under contract to the Federal Government to authorize, issue, or account for travel and travel reimbursements provided to individuals on official Federal Government business, which are covered under GSA/GOVT-4 Contracted Travel Services Program, 74 FR 26700 (June 3, 2009), and GSA/GOVT-4.
