July 13, 2009 (Transmittal No. DDTC 074-09.)

Hon. Nancy Pelosi, Speaker of the House of Representatives.

Dear Madam Speaker: Pursuant to Section 36(d) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed manufacturing license agreement for the manufacture of significant military equipment abroad.

The transaction contained in the attached certification involves the transfer of technical data, defense services, and hardware to the Commonwealth of Australia to support the manufacture, assembly, verification and test of Small Unmanned Aerial Vehicles and associated components for sale exclusively to AAI Corporation in the United States.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

Richard R. Verma,
Assistant Secretary Legislative Affairs.

Dated: August 12, 2009.

BILLING CODE 8040-01-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. USTR-2009-0022]

Implementation of the U.S.-EC Beef Hormones Memorandum of Understanding

AGENCY: Office of the United States
Trade Representative.

ACTION: Notice and action.

SUMMARY: On May 13, 2009, the United States and the European Communities ("EC") announced the signing of a Memorandum of Understanding (MOU) in the *Beef Hormones* dispute. Under the first phase of the agreement, the EC is obligated to open a new beef tariff-rate quota (TRQ) in the amount of 20,000 metric tons at zero rate of duty. The United States in turn is obligated not to increase additional duties above those in effect as of March 23, 2009. The EC established the new beef TRQ on August 1, 2009. The Office of the United States Trade Representative (USTR) is providing notice that the Trade Representative is terminating additional duties that were announced in January 2009, but which have been delayed up to now and have never entered into force. This action leaves in place the additional duties that have been in effect since March 23, 2009 on a reduced list of products. (For ease of reference, the reduced list is reprinted in the annex to this notice.) By taking this action, the Trade Representative has completed the process necessary to implement U.S. obligations under the first phase of the MOU and to pursue additional market access under subsequent phases of the MOU.

DATES: *Effective Date:* Additional duties in connection with the *Beef Hormones* dispute had been scheduled to be effective with respect to products that are entered, or withdrawn from warehouse, for consumption on or after September 19, 2009. Effective September 19, 2009, those additional duties are terminated. This action leaves in place the 100 percent *ad valorem* duties that have been in effect since March 23, 2009 on a reduced list of products.

FOR FURTHER INFORMATION CONTACT:
Roger Wentzel, Director, Agricultural
Affairs, (202) 395-6127 or David
Weiner, Director for the European

Union, (202) 395-4620 for questions concerning the *EC-Beef Hormones* dispute or the MOU; or William Busis, Associate General Counsel and Chair of the Section 301 Committee, (202) 395-3150, for questions concerning procedures under Section 301. Questions concerning customs matters may be directed to Renee Chovanec, International Coordination, Office of International Trade, U.S. Customs and Border Protection, 202-863-6384.

SUPPLEMENTARY INFORMATION:

A. Background

In a notice published on January 23, 2009, the Trade Representative determined to modify the action taken in July 1999 in connection with the World Trade Organization ("WTO") authorization of the United States in the *EC-Beef Hormones* dispute to suspend concessions and related obligations with respect to the European Communities ("EC"). See 74 FR 4265 (Jan. 23, 2009) (hereinafter referred to as the January 2009 action). The January 2009 action initially had an effective date of March 23, 2009. The Trade Representative subsequently delayed the effective date of the additional duties imposed under the January 2009 action to April 23, 2009; to May 9, 2009; to August 15, 2009, and then to September 19, 2009. See 74 FR 11613 (March 18, 2009); 74 FR 12402 (March 24, 2009); 74 FR 19263 (April 28, 2009); 74 FR 22626 (May 13, 2009); 74 FR 40864 (August 13, 2009).

The effective date of the removal of duties under the January 2009 action remained March 23, 2009. As a result, a reduced list of products subject to additional duties (at a rate of 100 percent *ad valorem*) has been in place since March 23, 2009. These are products that had been covered by the 1999 action, but that had not been removed from the list under the January 2009 action. This reduced list is set out in the Annex to this notice.

Under the first phase of the MOU, which concludes on August 3, 2012, the United States maintains the right to impose the additional duties on this reduced list of products, and is obligated not to raise the level of duties on these products or to impose additional duties on any other products in connection with the *EC-Beef Hormones* WTO dispute.

Under a possible second phase of the MOU, the EC would expand the beef TRQ to 45,000 metric tons, and the United States would suspend all of the additional duties imposed in connection with the *EC-Beef Hormones* WTO dispute.

For additional background concerning the *EC-Beef Hormones* WTO dispute;

the January 2009 action; and the prior delays in the effective date of the new duties under the January 2009 action, see 73 FR 66066 (Nov. 6, 2008); 74 FR 4265 (Jan. 23, 2009), 74 FR 11613 (March 18, 2009), 74 FR 12402 (March 24, 2009), 74 FR 19263 (April 28, 2009), 74 FR 22626 (May 13, 2009), and 74 FR 40864 (August 13, 2009). Further information on the May 13, 2009 U.S.-EC MOU may be found on USTR's Web site, <http://www.ustr.gov>.

In a notice published on August 13, 2009, the Section 301 Committee invited public comment on the action to be taken to implement U.S. obligations under the first phase of the MOU and to pursue additional market access under subsequent phases of the MOU. The notice included the list of products that have been subject to additional duties since March 23, 2009, and sought comments with regard to maintaining the 100 percent duties on those products throughout the remainder of the first phase of the MOU. See 74 FR 40864 (August 13, 2009). The comments submitted in response to the August notice may be viewed on the <http://www.regulations.gov> Web site under docket number USTR-2009-0022.

Taking account of the comments submitted in response to the notice, the Section 301 Committee recommended that the Trade Representative should terminate the additional duties under the January 2009 action that have been delayed up until September 19, 2009, and should leave in place the reduced list of products subject to 100 percent *ad valorem* duties that has been in effect since March 23, 2009. The Trade Policy Staff Committee (TPSC) has adopted the recommendation of the Section 301 Committee.

B. Determinations To Implement U.S.- EC Beef Hormones MOU

1. Determination Under Section 307(a)

Section 307(a) of the Trade Act of 1974, as amended, ("Trade Act") provides that "The Trade Representative may modify or terminate any action * * * that is being taken under section [301] if * * * (B) the burden or restriction on United States commerce of the denial of rights, or of the acts, policies, and practices, that are the subject of such action has increased or decreased." By establishing a 20,000 metric ton high-quality beef TRQ, the EC has decreased the burden or restriction on U.S. commerce.

The January 2009 action: (1) Removed some products from the list of products that had been subject to 100 percent *ad valorem* duties since 1999; (2) imposed 100 percent *ad valorem* duties on
