

December 31st testing date, S₂ thus was a member of the P group for more than one-half of the number of days of its tax year ending on July 31, 2007, which days proceeded December 31st, 2007 (120 days (January 1–April 30 of 2007) out of 211 days (January 1–July 30 of 2007)). The allocation of the 15 percent tax-bracket amount to the P group members is determined in the same manner as in Example 2 and, therefore, the bracket amounts allocated to P, S₁, S₂ and S₃ are the same as determined in Example 2. The allocation of the bracket amounts would be the same if, at the time P sold all of the S₂ stock, the parties had made a section 338(h)(10) election.

Example 4. Short tax year including a December 31st date. Corporation X owns all of the stock of corporations Y and Z. X, Y and Z each file separate returns. X and Y are on a calendar tax year and Z is on a fiscal tax year beginning October 1 and ending September 30. On January 2, 2007, Z liquidates. Because Z's final tax year (beginning on October 1, 2006 and ending on January 2, 2007) includes a December 31st date, that is, December 31, 2006, it is therefore not subject to the short taxable year rule provided by section 1561(b) and paragraph (e) of this section. Accordingly, Z is a component member of the X–Y–Z group, for the group's December 31st, 2006 testing date. Thus, the rules of this paragraph (e) do not limit the amount of any of the tax-benefit items of section 1561(a) available to Z or to this controlled group.

(f) *Effective/applicability date.* This section applies to any tax year beginning on or after December 21, 2009. However, taxpayers may apply this section to any Federal income tax return filed on or after December 21, 2009. For tax years beginning before December 21, 2009, see § 1.1561–2T as contained in 26 CFR part 1 in effect on April 1, 2009.
