Proposed Project

CDC HIV Prevention Capacity-Building Assistance (CBA) Information Collection, Reporting and Monitoring Forms—New—National Center for HIV, STD, and TB Prevention (NCHSTP), Centers for Disease Control and Prevention (CDC).

Background

CDC is requesting a 3-year clearance for information collection forms to monitor the HIV prevention activities of CBA provider grantees funded by CDC from 2004 to 2009. These forms will be used to collect information that assists in monitoring CBA services and activities. CDC is responsible for monitoring and evaluating HIV prevention activities conducted under these cooperative agreements. This requires that CDC have current information regarding the progress of CBA activities and services supported through these cooperative agreements. Therefore, forms such as the Trimester Interim Progress Report, CBA Notification Form, CBA Completion Form and the CBA Training Events Report are considered a critical component of the monitoring and evaluation process. Since this program will encompass approximately 34 CBA provider organizations, there is a need for a standardized system for reporting individual episodes of CBA delivered by all CBA provider grantees. The collection of data will help CDC discern and refine national goals and objectives in the prevention of HIV.
