SUPPLEMENTARY INFORMATION:

Title: *Land Description: Public Land States/Non-Public Land States.*

OMB Control No.: 1902–0145.

Type of Request: Three-year extension of FERC–587.

Abstract: Section 24 of the Federal Power Act (FPA) ¹ requires the Commission to conduct this collection of information, which pertains to applications proposing hydropower projects, or changes to existing hydropower projects, within “lands of the United States.” FERC Form 587 consolidates the required information, including a description of the applicable U.S. lands and identification of hydropower project boundary maps associated with the applicable U.S. lands. An applicant must send FERC Form 587 both to the Commission and to the Bureau of Land Management (BLM) ² state office where the project is located. The information consolidated in FERC Form 587 facilitates the reservation of U.S. lands as hydropower sites and the withdrawal of such lands from other uses.

Type of Respondents: Applicants proposing hydropower projects, or changes to existing hydropower projects, within lands of the United States.

Estimate of Annual Burden: The Commission estimates 70 responses, 70 hours, and \$6,090 in costs annually for respondents. These burdens are itemized in the following table:

¹ 16 U.S.C. 818.

² The Bureau of Land Management is within the U.S. Department of the Interior.

| Number of respondents | Annual number of responses per respondent | Total number of responses (Column A × Column B) | Average hour burden & cost per response ³ | Total annual burden hours & total annual cost (Column C × Column D) | Cost per respondent (\$) (Column E ÷ Column A) |
|-----------------------|---|---|--|---|--|
| A. | B. | C. | D. | E. | F. |
| 70 | 1 | 70 | 1 hour; \$87.00 | 70 hours; \$6,090 | \$87.00 |

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: July 28, 2021.

Secretary.
