

Mile Harbor and Lake Montauk. Data from the Town of East Hampton Draft LWRP (Feb 1999) indicate that the Town's Commercial Dock at the end of Gann Road on Three Mile Harbor serves 5–6 bay trawlers, 3–5 lobster boats and three or more trap fishermen. Lake Montauk is an important commercial fishing center and has an extensive and varied fleet. Although subject to turnover and change, the fleet has at times comprised as many as 44 ground fish trawlers, 12 inshore and 7 offshore lobster boats, and 53 long-liners, including as many as 30 transient boats from other areas of the East Coast. (A. T. Kearney, Development of a Commercial Fisheries Industry Strategy for the State of New York, 1989). Commercial dock space is available at two municipal and four private docks on Star Island and on West Lake Drive, two facilities on East Lake Drive and two facilities on the west side of the Inlet. Discussions with the commercial fishing fleet indicate that they discharge holding tanks outside the three mile limit.

There is one recreational party fishing boat that operates out of Greenport, the Peconic Star II. It docks at the Mitchell site and has a capacity for up to 150 persons. This vessel has two 60 gallon holding tanks and these are pumped out by a septic truck. The Peconic Queen operates out of the Peconic River in Riverhead and tours the estuary. This vessel has a holding tank and pumps out at the Town of Riverhead pumpout in downtown Riverhead. Montauk is also home to charter boats for offshore sport fishing and the Viking passenger ferry fleet. Interviews indicate that these vessels discharge holding tanks outside the three mile limit.

The EPA hereby makes a tentative affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the Peconic Estuary in the County of Suffolk, New York. A final determination on this matter will be made following the 30-day period for public comment and will result in a New York State prohibition of any sewage discharges from vessels in the Peconic Estuary.

Comments and views regarding this petition and EPA's tentative determination may be filed on or before April 5, 2002. Comments or requests for information or copies of the applicant's petition should be addressed to Walter E. Andrews, U.S. Environmental Protection Agency, Region II, Water Programs Branch, 290 Broadway, 24th Floor, New York, New York, 10007–1866. Telephone: (212) 637–3880.
