

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a proposed collection of information to OMB for review entitled NRC Form 646, "Formal Discrimination Complaint." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on February 11, 2022, 87 FR 8060.

1. *The title of the information collection:* NRC Form 646, "Formal Discrimination Complaint."
2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.
3. *Type of submission:* New.
4. *The form number, if applicable:* NRC Form 646.
5. *How often the collection is required or requested:* On occasion. The NRC Form 646 is submitted at the time an aggrieved individual decides to file a formal complaint of discrimination.
6. *Who will be required or asked to respond:* Employees, former employees, or applicants for employment with the NRC, who believe that they have been subjected to discrimination based on race, color, national origin, religion, gender, age, disability, reprisal, or sexual orientation.
7. *The estimated number of annual responses:* 30.
8. *The estimated number of annual respondents:* 30.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 30 hours.
10. *Abstract:* As set forth under 29 CFR 1614, the Equal Employment Opportunity (EEO) complaint process prescribes that when an aggrieved individual believes that they have been discriminated against on the basis of

their race, color, religion, sex (including sexual orientation, gender identity and expressions, and pregnancy), national origin, age, disability, genetic information (including family medical history), marital status, parental status, political affiliation, military service, and reprisal and seeks EEO counseling, the assigned EEO Counselor will conduct the pre-complaint (Informal) with the intentions of resolving the complaint within the Agency. At the conclusion of pre-complaint (Informal) process and if resolution was unsuccessful, the EEO Counselor during the final interview with the aggrieved person must discuss what occurred during the counseling process and provide the aggrieved with information to move the matter forward. Pursuant to 29 CFR 1614.105(c), if the aggrieved individual decides to file a Formal complaint (*i.e.*, NRC Form 646), the EEO Counselor must submit a written report (*i.e.*, EEO Counselors Report) within fifteen (15) calendar days to the Office of Small Business and Civil Right Director or designated official that will contain relevant information about the aggrieved individual, jurisdiction, claims, bases, Responding Management Officials, witnesses, requested remedies, and the EEO Counselor's checklist. Once received by the NRC, an authorized NRC representative will place the completed NRC Form 646 in a secure folder created specifically for the aggrieved individual within an automated tracking system.

Dated: May 24, 2022.

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

2021 Northwest Conservation and Electric Power Plan

AGENCY: Pacific Northwest Electric Power and Conservation Planning Council.

ACTION: Notice of final action.

SUMMARY: Pursuant to the Pacific Northwest Electric Power Planning and Conservation Act of 1980, the Council has formally reviewed and adopted the revised conservation and electric power plan, called the 2021 Northwest Power Plan.

ADDRESSES: The 2021 Northwest Power Plan is available for review on the

Council's website at https://www.nwccouncil.org/media/filer_public/4b/68/4b681860-f663-4728-987e-7f02cd09ef9c/2021powerplan_2022-3.pdf. The supporting materials, which provide technical support and context for the elements of the power plan, are available at: https://www.nwccouncil.org/2021powerplan_sitemap/. The power plan web page, which includes links to the draft power plan, comments received on the draft power plan, and all other documents, resources, meeting materials, and more on the process to develop the 2021 Northwest Power Plan, may be found at <https://www.nwccouncil.org/2021-northwest-power-plan/>.

FOR FURTHER INFORMATION CONTACT: John Shurts, General Counsel, (503) 222-5161, jshurts@nwccouncil.org.

SUPPLEMENTARY INFORMATION: The Pacific Northwest Electric Power Planning and Conservation Act of 1980 (Northwest Power Act) requires the Council to adopt and periodically review and revise a regional power plan, the northwest conservation and electric power plan. The Council first adopted the power and conservation plan in 1983, with significant amendments or complete revisions adopted in 1986, 1991, 1998, 2004, 2010, and 2016. For the 2021 Northwest Power Plan, the Council formally began the review process in February 2019, and in September 2021 the Council released for public review and comment the draft power plan. During the comment period, the Council held four public hearings on the draft plan, all of them held virtually due to the limitations imposed by the Covid-19 pandemic restrictions, but with each denoted as the public hearing for one of the four states of the Council, consistent with the requirements of the Northwest Power Act. In addition, the Council engaged in consultations about the power and conservation plan with Bonneville Power Administration (Bonneville), Bonneville's utility customers, other utilities, various state, federal, tribal and local agencies and governments, public interest organizations, business and trade associations, and the public at large, and, accepted and considered substantial written and oral comments, with the Council receiving nearly 200 formal and informal written public comments on the draft plan. The Council's work on the 2021 Northwest Power Plan came in the middle of a transformation in the power system in the northwest and the western US as a whole, driven by policies and economic trends that are pushing out fossil-fueled generation, adding renewable resources

with different power system characteristics, and potentially electrifying significant sectors of the economy. The Council grappled throughout the power plan process, including through consideration of the comments received on the draft, with a host of issues arising out of that transformation.

At the Council's regularly scheduled public meeting in February 2022, held in Portland, Oregon via webinar, the Council formally adopted the 2021 Northwest Power Plan. The revised power and conservation plan meets the requirements of the Northwest Power Act, which specifies the components the power plan is to have, including an energy conservation program, a recommendation for research and development; a methodology for determining quantifiable environmental costs and benefits; a 20-year demand forecast; a forecast of power resources that the Bonneville Power Administration will need to meet its obligations; and an analysis of reserve and reserve reliability requirements. The power and conservation plan also includes the Council's Columbia River Basin Fish and Wildlife Program, as amended pursuant to Section 4(h) under the Northwest Power Act prior to beginning this review of the power plan. The Council followed the adoption of the 2021 Northwest Power Plan with a decision at its regular monthly meeting in May 2022, in Whitefish, Montana, to approve a Statement of Basis and Purpose and Response to Comments to accompany the final plan.
