the regulations of the Federal Energy Regulatory Commission (FERC or Commission) thereunder. By the Application, Texas Eastern and DTI request authorization to amend the certificate to reflect backhaul entitlements on their jointly owned facilities. Texas Eastern and DTI request that the Commission issue a final amended certificate of public convenience and necessity granting the authorizations requested herein as soon as possible and, to the extent feasible, on or before March 14, 2011. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at <http://www/ferc.gov> using the “eLibrary” link. There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments

considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protest only to the party or parties directly involved in the protest.

For your convenience, there are three methods which you can use to submit your comments to the Commission. In all instances please reference the docket number with your submission. The Commission encourages electronic filing of comments and has expert eFiling staff available to assist you at (202) 502–8258 or efiling@ferc.gov.

(1) You may file your comments electronically by using the *eComment* feature, which is located on the Commission’s Web site at <http://www.ferc.gov> under the link to *Documents and Filings*. An *eComment* is an easy method for interested persons to submit brief, text-only comments on a project;
