

DATES: Effective January 10, 2001.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of January 10, 2001.

ADDRESSES: The service information referenced in this AD may be obtained from Hiller Aircraft Corporation, 3200 Imjin Road, Marina, California 93933-5101, telephone (408) 384-4500, fax (408) 384-3100. This information may be examined at the FAA, Office of the Regional Counsel, Southwest Region, 2601 Meacham Blvd., Room 663, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Jon Mowery, Aviation Safety Engineer, FAA, Los Angeles Aircraft Certification Office, Airframe Branch, 3960 Paramount Blvd., Lakewood, California 90712-4137, telephone (562) 627-5322, fax (562) 627-5210.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an airworthiness directive (AD) for Hiller Model UH-12, UH-12A, UH-12B, UH-12C, UH-12D, UH-12E, UH-12E-L, UH-12L, and UH-12L4 helicopters was published in the **Federal Register** on August 31, 2000 (65 FR 52958). That action proposed to require replacing all undrilled-shank bolts at the pivoting joints in the control system linkage with drilled-shank bolts and installing castellated nuts and cotter pins.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposal or the FAA's determination of the cost to the public. The FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

The FAA estimates that 500 helicopters of U.S. registry will be affected by this AD, that it will take approximately 24 work hours per helicopter to accomplish the required actions, and that the average labor rate is \$60 per work hour. Required parts will cost approximately \$150 per helicopter. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be \$795,000.

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not

have federalism implications under Executive Order 13132.

For the reasons discussed above, I certify that this action (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

2000-24-21 Siam Hiller Holdings, Inc.:
Amendment 39-12028. Docket No. 2000-SW-27-AD.

Applicability: Model UH-12, UH-12A, UH-12B, UH-12C, UH-12D, UH-12E, UH-12E-L, UH-12L, UH-12L4 helicopters, certificated in any category.

Note 1: This AD applies to each helicopter identified in the preceding applicability provision, regardless of whether it has been otherwise modified, altered, or repaired in the area subject to the requirements of this AD. For helicopters that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (b) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

Compliance: Required at the next annual inspection or within 12 months, whichever occurs first, unless accomplished previously.

To prevent separation of the control system attachments at pivoting points and subsequent loss of control of the helicopter, accomplish the following:

(a) Replace all undrilled-shank bolts at pivoting joints in the control system linkage with drilled-shank bolts, and install castellated nuts and cotter pins in accordance with Hiller Aircraft Corporation Service Bulletin No. 10-4, Revision 2, dated December 20, 1999.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles Aircraft Certification Office, FAA. Operators shall submit their requests through an FAA Principal Maintenance Inspector, who may concur or comment and then send it to the Manager, Los Angeles Aircraft Certification Office.

Note 2: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Los Angeles Aircraft Certification Office.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the helicopter to a location where the requirements of this AD can be accomplished.

(d) The installation of castellated nuts and cotter pins shall be done in accordance with Hiller Aircraft Corporation Service Bulletin No. 10-4, Revision 2, dated December 20, 1999. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from Hiller Aircraft Corporation, 3200 Imjin Road, Marina, California 93933-5101, telephone (408) 384-4500, fax (408) 384-3100. Copies may be inspected at the FAA, Office of the Regional Counsel, Southwest Region, 2601 Meacham Blvd., Room 663, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(e) This amendment becomes effective on January 10, 2001.

Issued in Fort Worth, Texas, on November 14, 2000.

Michele M. Owsley,

Acting Manager, Rotorcraft Directorate, Aircraft Certification Service.

14 CFR Part 71

[Airspace Docket No. 00-AWP-11]

Revision to the Legal Description of the Laughlin/Bullhead International Airport Class D Airspace Area, AZ

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Final rule.

SUMMARY: This action revises the legal description of the Laughlin/Bullhead International Airport Class D airspace area, AZ, by including that airspace within a 4.2-mile radius of the Laughlin/Bullhead International Airport west of a line 1.8-miles west of and parallel to the north/south runway.

EFFECTIVE DATE: January 25, 2001.

FOR FURTHER INFORMATION CONTACT: Richard V. Coffin Jr., Airspace Specialist, Airspace Branch, AWP-520.9, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone (301) 725-6533.

SUPPLEMENTARY INFORMATION:

History

The Airspace Branch in the Western-Pacific Region received a request from the Laughlin/Bullhead International Airport air traffic control tower manager to include the airspace west of the airport beyond 1.8 miles of the north/south runway and within a 4.2 mile radius of the airport.

Class D airspace areas are published in Paragraph 5000 of FAA Order 7400.9H, Airspace Designations and Reporting Points, dated September 1, 2000, and effective September 16, 2000, through September 15, 2001, which is incorporated by reference in 14 CFR 71.1. The Class D airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 of the Federal Aviation Regulations revises the legal description of the Laughlin/Bullhead International Airport Class D airspace area, AZ, by including that airspace within a 4.2-mile radius of the Laughlin/Bullhead International Airport west of a line 1.8 miles west of and parallel to the north/south runway. This action will change the actual dimensions, configuration, or operating requirements of the Laughlin/Bullhead International Airport Class D airspace area, AZ.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a

routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9H, Airspace Designations and Reporting Points, dated September 1, 2000, and effective September 16, 2000, is amended as follows:

Paragraph 5000 *Class D Airspace*

* * * * *

AWP AZ D Bullhead City, AZ [Revised]
Laughlin/Bullhead International Airport,
AZ

(Lat. 35°09′ 27″N, Long. 114°33′ 34″W)
That airspace extending upward from the surface to and including 3,200 feet MSL within a 4.2-mile radius of the Laughlin/Bullhead International Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

RIN 2120–AA66

Amendment of Time of Use for Restricted Areas R–4501A, B, C, D, and E, Fort Leonard Wood; MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the times of use for Restricted Areas R–4501A, B, C, D, and E, Fort Leonard Wood, MO. Specifically, this action reduces and/or increases the published times and/or days the restricted areas are in use. The FAA is taking this action in response to the United States Army’s (USA) increased training requirements.

EFFECTIVE DATE: 0901 UTC, January 25, 2001.

FOR FURTHER INFORMATION CONTACT: Steve Rohring, Airspace and Rules Division, ATA–400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Background

On August 31, 2000, the FAA proposed to amend 14 CFR part 73 to amend the times of use for Restricted Areas R–4501A, B, C, D, and E, Fort Leonard Wood, MO (65 FR 52961). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. The Department of Defense in a continuing need to meet its added national defense responsibilities has increased its training requirements of the USA Reserve and National Guard resources in many areas of the United States. One of the locations where this training has been increased is at Fort Leonard Wood, MO. This increase in training requires modification of the times of use for R–4501 and its subdivisions. Therefore, the USA has requested that the FAA amend the times and days of use for R–4501A, B, C, D, and E. Except for editorial changes, this amendment is the same as that proposed in the notice. Section 73.45 of part 73 was republished in FAA Order 7400.8H dated September 1, 2000.

The Rule

This amendment to 14 CFR part 73 modifies the times of use of R–4501 and
