

packinghouse registration, inspection of registered production sites, investigation for recertification of production sites, packinghouse tracking system, packinghouse inspection, handling procedures, labeling of cartons, trapping system, recordkeeping of trap location, packinghouse notification of pest detection, mitigation measures upon *Bactrocera dorsalis* detection at production sites and packinghouses, cold treatment facility audits and monitoring, notice of arrival, emergency action notification, and phytosanitary certificates.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.007 hours per response.

Respondents: Producers and importers of sand pears from China and national plant protection organization officials of China.

Estimated annual number of respondents: 30.

Estimated annual number of responses per respondent: 2,019.

Estimated annual number of responses: 60,556.

Estimated total annual burden on respondents: 431 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of March 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-08-2019]

Foreign-Trade Zone (FTZ) 12—McAllen, Texas; Notification of Proposed Production Activity; Universal Metal Products, Inc.; (Formed and Converted Metal for Commercial and Industrial Use); Pharr, Texas

Universal Metal Products, Inc. (UMP) submitted a notification of proposed production activity to the FTZ Board for its facility in Pharr, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 19, 2019.

The UMP facility is located within Subzone 12B. The facility will be used for the stripping, bending, stamping, sanding, grinding, sawing, welding, riveting, tapping, washing, and heat treating of steel sheets and coils, and other metallic components, into parts for commercial and industrial use. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt UMP from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below, UMP would be able to choose the duty rates during customs entry procedures that apply to: Airbag bracket; airbag propellant holder; various aluminized steel products (bracket; control mounting plate; element support plate; extension arm; heater assembly; heater duct; heater element housing; heater plate; housing receptacle; insulator plate; switch frame; tap plate); various aluminum products (bracket; mounting foot; pad backing plate; shim); annealed steel shim; battery terminal assembly; brass mounting clamp ferrule; clinch stud retainer with studs; clutch fork; various cold rolled steel products (anti-lock braking system case; bracket; cover grommet; end cap; hinge butt; lap anchor PT guide plate; latch; mounting clamp; mounting feet; plug; retainer; sleeve insert; torque limiter; tubular rivet); various copper products (battery terminal; bus bar; flange; lug; terminal assembly); front stabilizer bracket; various galvanized steel products (adjustable roller bracket sub-assembly; bracket; channel; control board housing;

control box; control box cover; cover plate; flange; flange plate; heater plate; housing control mounting board; mechanical and electrical control cover; mounting collar; mounting strap; plate reinforcement; plate volume compensator; retainer; shield; terminal plate; top panel support; water valve cover); high strength low alloy steel buckle strap; hinge assembly; hinge butt assembly; hinge pin assembly; various hot rolled pickled/oiled steel products (bracket; clamp; flange; lever); various hot rolled steel products (base plate; bottom clamp; bracket; buckle strap; cam plate; clamp; clamp cover; directional fork; electrical box-metal; gearbox fork; inversion fork; lever; metal blank; mounting bracket; ramp support; stabilizer clip; stamp bed base angle; strap; wiring harness clamp); iron/steel brake fork; iron/steel weld nut bracket; metal shaft; mounting bracket assembly; plastic wheel adjustable roller bracket sub-assembly; retainer with studs; various stainless steel products (bracket; electrical component bracket; handle; latch; latch mechanism; mounting foot; sleeve coupling; stake lock); various steel products (adjustable roller bracket sub-assembly; hinge; hinge blade; nut bracket; nut terminal assembly; pin bracket; rivet adjustable roller bracket sub-assembly); various steel/aluminum products (two-way bracket; bracket; frame bracket; mounting clamp bracket; retractor bracket; shield bracket); steel/iron hinge assembly; various steel, auto standard products (base plate; bracket; cam plate; hinge butt; spiral cam; tap plate); stud biter bracket; various tin plated copper products (sensor power load shield; sleeve overlap; sleeve shield); and, wire mounting spring (duty rate ranges from duty-free to 5.7%). UMP would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Various airbag components (bracket; propellant holder; retainer with studs); aluminized steel sheet and coil; aluminum sheet; brass sheet and coil; cold rolled steel sheet and coil; copper sheet and coil; electrical terminal; foam pad; galvanized steel sheet and coil; high strength low alloy steel; hot rolled pickled/oiled steel sheet and coil; hot rolled steel sheet and coil; various iron/steel components (axle fork; brake fork; clinch stud; hinge; hinge butt; hinge pin); metal shaft; mounting spring wire; plastic roller wheel; stainless steel bars and rods; stainless steel sheet and coil;
