I. Background

CBER is announcing the availability of version 2.2 of the Specifications for Preparing and Submitting Postmarket ICSRs for Vaccines (available at <https://www.fda.gov/industry/about-esg/cber-vaccine-icsr-implementation>). The version update has been prepared to accommodate the submission of certain reports for combination products required by an FDA rule, "Postmarketing Safety Reporting for Combination Products", published in the **Federal Register** of December 20, 2016 (81 FR 92603) (available at <https://www.fda.gov/combination-products/guidance-regulatory-information/postmarketing-safety-reporting-combination-products>). In addition, version 2.2 includes updated business rules (Appendix I of the Specifications) which provide details on data field specifications as well as updated sample Extensible Markup Language (XML) ICSR test files (available at <https://www.fda.gov/industry/about-esg/cber-vaccine-icsr-implementation>). The version update is not applicable to CBER-regulated drug products marketed for human use with approved NDAs and ANDAs; CBER-regulated therapeutic biological products marketed for human use with approved BLAs; Whole Blood or blood components; and HCT/PS regulated solely under section 361 of the Public Health Service Act (42 U.S.C. 264).

Manufacturers can contact the CBER ICSR Submissions Coordinator (CBERICSRSubmissions@fda.hhs.gov) to inform of their intent to transition to version 2.2 of the Specifications for Preparing and Submitting Postmarket Individual Case Safety Reports for Vaccines. Although manufacturers are encouraged to transition to the updated version 2.2, CBER continues to accept reports in version 1.0 until further notice.

[Docket No. FDA-2020-N-1816]

Lavipharm Laboratories, Inc., et al.; Withdrawal of Approval of Five Abbreviated New Drug Applications

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing approval of five abbreviated new drug applications (ANDAs) from multiple holders of those ANDAs. The basis for the withdrawal is that these ANDA holders have repeatedly failed to file required annual reports for those ANDAs and have failed to satisfy the requirement to have an approved risk evaluation and mitigation strategy (REMS).

DATES: Approval is withdrawn as of April 9, 2021.

FOR FURTHER INFORMATION CONTACT: Kimberly Lehrfeld, Center for Drug Evaluation and Research, Food and

Drug Administration, 10903 New Hampshire Ave., Bldg. 51, Rm. 6226, Silver Spring, MD 20993-0002, 301-796-3137, Kimberly.Lehrfeld@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: The holder of an approved application to market a new drug for human use is required to submit annual reports to FDA concerning its approved application in accordance with §§ 314.81 and 314.98 (21 CFR 314.81 and 314.98). Additionally, in accordance with section 505-1 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 355-1), the Agency determined that a REMS is necessary for all the applicable listed drugs that the ANDAs in table 1 reference to ensure the benefits of the listed drugs outweigh the risks. In accordance with section 505-1(i) of the FD&C Act, an ANDA is required to have a REMS if the applicable listed drug has an approved REMS.

In the **Federal Register** of September 25, 2020 (85 FR 60474), FDA published a notice offering an opportunity for a hearing (NOOH) on a proposal to withdraw approval of these five ANDAs because the holders of these ANDAs had repeatedly failed to submit the required annual reports and have failed to receive approval of a REMS for their products. The holders of these ANDAs did not respond to the NOOH. Failure to file a written notice of participation and request for hearing as required by § 314.200 (21 CFR 314.200) constitutes a waiver of the opportunity for hearing by the holders of the ANDAs concerning the proposal to withdraw approval of their ANDAs and a waiver of any contentions concerning the legal status of the drug products. Therefore, FDA is withdrawing approval of the five applications listed in table 1 of this document.
