If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 396, ''Certification of Medical Examination by Facility Licensee.'' The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on February 1, 2022, 87 FR 5520.

1. *The title of the information collection:* NRC Form 396, ''Certification of Medical Examination by Facility Licensee.''
2. *OMB approval number:* 3150–0024.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 396.
5. *How often the collection is required or requested:* Upon application for an initial or upgrade license; every 6 years for the renewal of an operator or senior operator license, and notices of disability that occur during licensed tenure.
6. *Who will be required or asked to respond:* Facility licensees who are tasked with certifying the medical fitness or operator licensee.
7. *The estimated number of annual responses:* 1,650.
8. *The estimated number of annual respondents:* 128.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 2063 hours (1650 Reporting hours plus 413 Recordkeeping hours).
10. *Abstract:* NRC Form 396 is used to transmit information to the NRC regarding the medical condition of applicants for initial operator licenses or renewal of operator licenses and for the maintenance of medical records for all licensed operators. The information is used to determine whether the physical condition and general health of applicants for operator licensees is such that the applicant would not be expected to cause operational errors and endanger public health and safety.
