

preliminary planning criteria for the plan amendment includes the following: (1) the scope of the plan amendment is limited to prohibiting a single use (recreational target shooting) on certain portions of public lands; (2) the plan amendment will carefully weigh the benefits of enhanced opportunities for recreational shooting at developed ranges against the adverse effects of the recreational shooting opportunities foregone by the proposed shooting closures in the three areas; (3) the closure to a public land use will be applied to the smallest area necessary to provide for public safety, sustainable resource management, and the protection of important resource values, consistent with the Dingell Act of 2019; (4) the prohibited use will only apply to recreational target shooting and any discharge of firearms for purposes other than active, lawful hunting on the public lands identified above; (5) the amendment will comply with FLPMA, NEPA, and all other applicable laws, regulations, Executive and Secretarial Orders, and policies; (6) the amendment will incorporate all other management decisions brought forward from the Taos Resource Management Plan, approved in May 2012; (7) broad-based public participation and collaboration will be an integral part of the planning process; (8) the planning process will provide for ongoing consultation with Native American tribal governments and strategies for protecting traditional cultural properties; and (9) the BLM will work collaboratively with cooperating agencies and all other interested groups, agencies, and individuals.

#### Public Scoping Process

This notice of intent initiates the scoping period and public review of the planning criteria, which guide the development and analysis of the RMP amendment and EA.

The BLM will hold two in-person meetings in Santa Fe and one virtual meeting online. The specific dates and location(s) of these scoping meetings will be announced at least 15 days in advance through email, mail, local media, and on the ePlanning project web page identified in the **ADDRESSES** section, above.

#### Dingell Act Recreational Shooting Closures

In accordance with the John D. Dingell, Jr. Conservation, Management, and Recreation Act of 2019 (Dingell Act, Pub. L. 116–9, section 4103), the BLM is announcing the opening of a 60-day public comment period on the proposed permanent shooting closures in the areas described under Preliminary

Alternatives above. The closures are proposed to eliminate conflicts and safety issues associated with recreational shooting, including conflicts with other public lands users, neighboring residents, and the degradation of cultural and natural resources. The closures would relocate recreational shooting opportunities away from residential areas and encourage the use of developed shooting ranges where opportunities would be enhanced. The closures would also allow for the removal of trash and lead contaminants and the remediation of soils, vegetation, and wildlife habitat in the three areas. Comments may be submitted using any of the methods listed in the **ADDRESSES** section, above.

#### Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plan and to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in this planning effort: archaeology, botany, biology, land use planning, range management, realty, and outdoor recreation.

#### Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the proposed plan amendment and all reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the proposed plan amendment or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation. Mitigation may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of section 106. The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian Tribes on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other

Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Tribes and stakeholders that may be interested in or affected by the proposed plan amendment that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the EA as a cooperating agency.

**SUPPLEMENTARY INFORMATION:** Chapter 154 of title 28 of the United States Code (chapter 154) provides special procedures for federal habeas corpus review of cases brought by prisoners in State custody who are subject to capital sentences. These special procedures may be available to a State only if the Attorney General of the United States has certified that the State has established a qualifying mechanism for the appointment, compensation, and payment of reasonable litigation expenses of competent counsel in State postconviction proceedings for indigent capital prisoners. 28 U.S.C. 2261, 2265; 28 CFR part 26.

By letter dated April 13, 2020, the State of Arizona was notified of former Attorney General William Barr’s certification of Arizona’s capital counsel mechanism under chapter 154, and the statement of certification and supporting analysis (Certification) was published in the **Federal Register** on April 14, 2020 (85 FR 20705). As permitted by chapter 154, a group of Arizona capital prisoners and the Arizona Federal Public Defender’s Office instituted a petition for review of the Certification on April 29, 2020 in the U.S. Court of Appeals for the District of Columbia Circuit. See 28 U.S.C. 2265(c). On February 10, 2021, the U.S. Department of Justice (Department) informed the court that then-Acting Attorney General Monty Wilkinson had determined that aspects of the Certification may benefit from further consideration or further development of the record. On April 28, 2021, the Department moved for a voluntary remand of the Certification to facilitate further development of the administrative record and reconsideration of the Certification by Attorney General Merrick Garland. The court granted that motion on May 26, 2021. *Office of the Federal Public*
