

distributes such income to Corporation D and is then taxed on the basis of what the tax (a 40 percent effective rate) would have been if the income had been derived in 1964 by Corporation E from sources within Country X from doing business through a permanent establishment therein. Country Y levies an income tax at an effective rate of 50 percent on income derived from sources within such Country, but the income of Branch B for 1964 is effectively taxed by Country Y at a 5 percent rate since under the laws of such country, only 10 percent of Branch B's income is derived from sources within such country. Corporation E makes no distributions to Corporation D in 1964.

(ii) *Result.* In determining foreign base company sales income of Corporation E for 1964, Branch B is treated as a separate wholly owned subsidiary corporation of Corporation E, the 5 percent rate of tax being less than 90 percent of, and at least 5 percentage points less than the 40 percent rate. Income derived by Branch B, treated as a separate corporation, from the purchase from a related person (Corporation D), of personal property manufactured outside of Country Y and sold for use, disposition, or consumption outside of Country Y constitutes foreign base company sales income. If, instead, Corporation D were unrelated to Corporation E, none of the income would be foreign base company sales income because Corporation E would be purchasing from and selling to unrelated persons and if Branch B were treated as a separate corporation it would likewise be purchasing from and selling to unrelated persons. Alternatively, if Corporation D were related to Corporation E, but Branch B manufactured the articles prior to sale under the principles of paragraph (a)(4)(iv) of this section in conjunction with the manufacture of the articles (within the meaning of paragraph (a)(4)(ii) or (a)(4)(iii) of this section) by an unrelated contract manufacturer, then the income would not be foreign base company sales income because Branch B, treated as a separate corporation, would qualify for the manufacturing exception under paragraph (a)(4)(i) of this section.

SUPPLEMENTARY INFORMATION: The Committee's function is to assist directly in the development of special regulations for management of off-road vehicles (ORVs) at Cape Hatteras National Seashore (Seashore). Executive Order 11644, as amended by Executive Order 11989, requires certain Federal agencies to publish regulations that provide for administrative designation of the specific areas and trails on which ORV use may be permitted. In response, the NPS published a general regulation at 36 CFR 4.10, which provides that each park that designates routes and areas for ORV use must do so by promulgating a special regulation specific to that park. It also provides that the designation of routes and areas shall comply with Executive Order 11644, and 36 CFR § 1.5 regarding closures. Members of the Committee will negotiate to reach consensus on concepts and language to be used as the basis for a proposed special regulation, to be published by the NPS in the **Federal Register**, governing ORV use at the Seashore. The duties of the Committee are solely advisory.

Dated: February 15, 2008.

Michael B. Murray,

Superintendent, Cape Hatteras National Seashore.
