

DATES: Access by the DOJ and/or the parties to the Litigation to material discussed in this Notice that has been either claimed or determined to be CBI is ongoing, and is expected to continue in the future during the pendency of the Litigation. The EPA will accept comments on this Notice through October 30, 2010.

ADDRESSES: For further information contact Craig Kaufman, Attorney-Advisor, Office of Site Remediation Enforcement, U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW. (Mail Code 2272A), Washington, DC 20460; telephone number: (202) 564-4284; e-mail address: kaufman.craig@epa.gov.

SUPPLEMENTARY INFORMATION: In accordance with 40 CFR 2.209(c)(1), the EPA has disclosed information, including CBI, to the DOJ in response to a written request for information from the DOJ and/or on the initiative of the EPA because such disclosure was necessary to enable the DOJ to carry out a litigation function on behalf of the EPA. The DOJ has been served with discovery requests seeking, among other things, documentation supporting the proofs of claim filed by the United States of America in the bankruptcy styled, *In re Tronox Incorporated, et al.*, Case No. 09-10156 (ALG) (Chapter 11), pending in the United States Bankruptcy Court for the Southern District of New York (the "Bankruptcy"). Those proofs of claim were filed on behalf of, *inter alia*, the EPA regarding the debtors' environmental liabilities, including liabilities at sites at which the EPA's contractors may have provided services.

The parties to the Litigation have entered into an Agreed Protective Order, *see* Document No. 248 in the Bankruptcy docket, as amended on August 12, 2009, *see* Document No. 622 (together, the "AGP"), that will govern the treatment of information, including CBI, that is designated "Confidential" pursuant to the AGP. The AGP provides for limited dissemination of confidential information and for the return or destruction of confidential information at the conclusion of the Litigation. *See, e.g.*, AGP, at ¶¶ 1, 10, 12-16, 21.

In accordance with 40 CFR 2.209(d), the EPA is hereby giving notice that it has authorized the DOJ to disclose information that originated from the EPA to the extent required to comply with the discovery obligations of the United States in the Litigation, including its obligations under the AGP. Accordingly, business information that is ordinarily entitled to confidential treatment under existing Agency

regulations (40 CFR Part 2) may be included in the information that the DOJ will release to parties in the Litigation pursuant to the AGP.

As explained by EPA's Office of General Counsel at its Web site, <http://www.epa.gov/ogc/documents.htm>, the CBI that may be disclosed in the Litigation could include, but is not limited to, business information submitted by contractors and prospective contractors, *see generally* Class Determination 1-95; business information submitted in technical and cost proposals, *see generally* Class Determination 2-78; and business information submitted in contract proposals and related documents, *see generally* Class Determination 2-79. CBI may also include information obtained by the EPA under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), including information provided to the EPA, directly or indirectly, pursuant to section 104 of CERCLA. All CBI that is disclosed in the Litigation will be designated "Confidential" pursuant to the AGP.

Information, including CBI, discussed in this Notice may relate to certain companies and agencies that have provided services for the EPA at sites involved in the Litigation, including but not limited to the following: Agency for Toxic Substances and Disease Registry; Alion Science & Technology Corporation; Alpha Woods Hole Laboratories; Arctic Slope Regional Corporation; ASRC Management Services, Incorporated; CDM Federal Programs Corporation; CH2M Hill Incorporated; Clayton Environmental Consultants; Columbia Analytical Services; Computer Services Corporation; Contract Laboratory Program; Datachem Laboratories, Incorporated; DynCorp International; Ecology & Environment, Incorporated; Environmental Control Technology Corporation; EnviroSystems, Incorporated; Foster Wheeler Environmental Corporation; GRB Environmental Services, Incorporated; Illinois Environmental Protection Agency; Industrial Economics, Incorporated; InStep Software, LLC; Integrated Support Systems, Incorporated; Keystone Environmental Resources Incorporated; Lancaster Laboratories; Lata-Kemron Remediation, LLC; Laucks Testing Laboratories, Incorporated; Liberty Analytical Corporation; Lockheed Environment Systems and Technologies Company; Lockheed Environmental & Technologies Remote Sensing Support; Lockheed Martin Services Incorporated;

Malcolm Pirnie, Incorporated; Metcalf & Eddy, Incorporated; Mitkem Laboratories; NewFields; OHM Remediation Services Corporation; Resource Applications, Incorporated; Ronson Management Corporation; Routine Analytical Services; Roy F. Weston, Incorporated; Science Applications International Corporation; Special Analytical Services; S.S. Papadopoulos & Associates, Incorporated; Stevenson; STN Environmental Joint Venture; TechLaw, Incorporated; Tetra Tech EM Incorporated; The Conti Group; Toeroek Associates, Incorporated; TRC Environmental Corporation; United States Environmental Services, LLC; United States Army Corps of Engineers; United States Department of the Interior; and Westinghouse Remediation Services, Incorporated; Weston Solutions, Incorporated; Wisconsin Department of Natural Resources; WRS Infrastructure and Environment Incorporated; York Laboratories.

Dated: October 18, 2010.

Sandra Connors,

Acting Deputy Director, Office of Site Remediation Enforcement.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9216-4]

Science Advisory Board Staff Office Request for Nominations of Experts for the Consultation on Revisions to the Multi-Agency Radiation Survey and Site Investigation Manual

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office is requesting public nominations for technical experts to augment the SAB's Radiation Advisory Committee (RAC) to conduct a consultation on revision to the Multi-Agency Radiation Survey and Site Investigation Manual.

DATES: Nominations should be submitted by November 12, 2010 per instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Notice and Request for Nominations may contact Dr. K. Jack Kooyoomjian, Designated Federal Officer (DFO), SAB Staff Office, by telephone/voice mail at (202) 564-2064, or via e-mail at kooyoomjian.jack@epa.gov. General

information concerning the EPA Science Advisory Board can be found at the EPA SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, consultation, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The Federal Inter-Agency Multi-Agency Radiation Survey and Site Investigation Manual (MARSSIM) Workgroup plans to issue a Revision 2 to the MARSSIM. The document to be revised, "MARSSIM, Rev. 1 (2001)," is available at <http://www.epa.gov/radiation/marssim/obtain.html>. The MARSSIM is the official multi-agency (U.S. EPA, U.S. Nuclear Regulatory Commission, U.S. Department of Energy and U.S. Department of Defense) consensus document on planning, coordinating, evaluating and documenting environmental radiological surveys. The MARSSIM, Rev. 1 (2001) provides explicit guidance to Federal agencies and other parties, including states, site owners, contractors and private entities on how to demonstrate that their site is in compliance with a radiation dose or risk-based regulation, otherwise known as a release criterion.

Specifically, the update to the MARSSIM is anticipated to include incorporation of an improved treatment of measurement uncertainty, additional survey methods made possible by improvements in technology, more extensive discussion on areas of elevated activity [hotspots and Uranium Mill Tailings Radiation Control Act (UMTRCA) standards], and a variety of other improvements resulting from feedback received from users since issuance of the document. The planned revision reflects changes in science and technology, as well as twelve years of combined Federal experience in utilizing MARSSIM. This effort reflects a major extension of a multi-agency initiative to provide Federal guidance on determining whether a radioactively-contaminated site (including materials and equipment located on or used at the site) has been adequately cleaned up.

To support development of this update, EPA's Office of Radiation and

Indoor Air (ORIA), on behalf of the Federal Inter-Agency MARSSIM Workgroup, has requested an SAB consultation to seek advice early in the process for technical and scientific improvements to MARSSIM leading to the issuance of Revision 2. In response to ORIA's request, the SAB Radiation Advisory Committee (RAC) will be augmented with additional experts to conduct this consultation.

Request for Nominations: The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists and engineers with demonstrated expertise and experience in one or more of the following areas: Environmental monitoring and sampling, geology, hydrogeology, measurement protocols for radionuclides, metrology, radiation science and statistics.

Additional Information: For questions concerning "MARSSIM, Rev. 1(2001)," please contact Dr. Mary E. Clark of the U.S. EPA, ORIA by telephone at (202) 343-9348, fax at (202) 343-2395, or e-mail at clark.marye@epa.gov.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on this expert Panel. Nominations should be submitted in electronic format (which is preferred over hard copy) following the instructions for "Nominating Experts to Advisory Panels and Ad Hoc Committees Being Formed" provided on the SAB Web site. The instructions can be accessed through the "Nomination of Experts" link on the blue navigational bar on the SAB Web site at <http://www.epa.gov/sab>. To receive full consideration, nominations should include all of the information requested below.

EPA's SAB Staff Office requests contact information about the person making the nomination; contact information about the nominee; the disciplinary and specific areas of expertise of the nominee; the nominee's curriculum vita; sources of recent grant and/or contract support; and a biographical sketch of the nominee indicating current position, educational background, research activities, and recent service on other national advisory committees or national professional organizations.

Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB Web site, should contact Dr. K. Jack Kooyoomjian, DFO, as indicated above in this notice. Nominations should be submitted in time to arrive no later than November 12, 2010. EPA

values and welcomes diversity. In an effort to obtain nominations of diverse candidates, EPA encourages nominations of women and men of all racial and ethnic groups.

The EPA SAB Staff Office will acknowledge receipt of nominations. The names and bio-sketches of qualified nominees identified by respondents to this **Federal Register** notice, and additional experts identified by the SAB Staff, will be posted in a List of Candidates on the SAB Web site at <http://www.epa.gov/sab>. Public comments on this List of Candidates will be accepted for 21 calendar days. The public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

For the EPA SAB Staff Office, a review panel includes candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. In forming this expert panel, the SAB Staff Office will consider public comments on the List of Candidates, information provided by the candidates themselves, and background information independently gathered by the SAB Staff Office. Selection criteria to be used for Panel membership include: (a) Scientific and/or technical expertise, knowledge, and experience (primary factors); (b) availability and willingness to serve; (c) absence of financial conflicts of interest; (d) absence of an appearance of a lack of impartiality; and (e) skills working in committees, subcommittees and advisory panels; and, (f) for the Panel as a whole, diversity of expertise and viewpoints.

The SAB Staff Office's evaluation of an absence of financial conflicts of interest will include a review of the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48). This confidential form allows Government officials to determine whether there is a statutory conflict between that person's public responsibilities (which includes membership on an EPA Federal advisory committee) and private interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded from the following URL address <http://>

www.epa.gov/sab/pdf/epaform3110-48.pdf.

The approved policy under which the EPA SAB Office selects subcommittees and review panels is described in the following document: *Overview of the Panel Formation Process at the Environmental Protection Agency Science Advisory Board* (EPA-SAB-EC-02-010), which is posted on the SAB Web site at <http://www.epa.gov/sab/pdf/ec02010.pdf>.

Dated: October 15, 2010.

Vanessa T. Vu,

Director, EPA Science Advisory Board Staff Office.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

October 1, 2010.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 20,

2010. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via the Internet at Nicholas_A_Fraser@omb.eop.gov and to the Federal Communications Commission via e-mail to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Judith B. Herman, OMD, 202-418-0214 or e-mail Judith-b.herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0698.

Title: Sections 25.203(i) and 73.1030(a)(2), Radio Astronomy Coordination Zone in Puerto Rico.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 200 respondents; 1,000 responses.

Estimated Time per Response: 5-40 minutes (.0833 hours to .667 hours).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 154(i), 303(c), 303(f), 303(g), 303(r), and 309(j)(13).

Total Annual Burden: 142 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this revised collection to the Office of Management and Budget (OMB) after this comment period to obtain the full three year approval from them. The Commission is revising this information collection because Part 23 rules, specifically section 23.20, was eliminated because there are no International Fixed Public Radiocommunication Services (IFPRS) licenses in operation. On January 14, 2010, a *Report and Order*, IB Docket No. 05-216, FCC 10-7, was adopted that eliminated Part 23 rules and the frequency allocations for IFPRS in the Table of Frequency Allocation. Part 23 was created in the 1930s. IFPRS more recently was made up of point-to-point microwave services. For many years, these facilities provided an important

form of international communications. More recently, however IFPRS has been limited to point-to-point microwave services provided between islands in the Caribbean Sea. Therefore, the Commission has removed this rule section from this information collection.

The Commission published a 60-day delegated notice on September 22, 2010 (75 FR 57792) which incorrectly stated that we would submit this collection as an extension (no change in the Commission's reporting and/or third party disclosure requirements). However, after publication of this notice in the **Federal Register**, FCC 10-7 was discovered that changed this information collection. So, the Commission decided to publish another notice with accurate information on how we are treating and submitting this OMB submission.

The existing requirements for this information collection are contained in parts 25 and 73. In a 1997 Report and Order, the Commission established a Coordination Zone for new and modified radio facilities in various communications services that cover the islands of Puerto Rico, Desecheo, Mona, Vieques, and Culebra within the Commonwealth of Puerto Rico. The coordination zone and notification procedures enable the Arecibo Radio Astronomy Observatory to receive information needed to assess whether an applicant's proposed operations will cause harmful interference to the Arecibo Observatory's operations, which also promotes efficient resolution of coordination problems between the applicants and the Observatory. The Observatory will perform interference evaluations at no cost to applicants. If potential interference problems are identified, applicants are required to make reasonable attempts to resolve or mitigate such problems in order to protect the Observatory.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
