

Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of December 16, 2020 (85 FR 81487). In light of the restrictions on access to the Commission building due to the COVID-19 pandemic, the Commission conducted its hearing through written testimony and video conference on February 12, 2021. All persons who requested the opportunity were permitted to participate.

The investigation schedules became staggered when Commerce did not align its countervailing duty investigation with its antidumping duty investigation, and reached an earlier final countervailing duty determination. In April 2021, the Commission issued a final affirmative determination in its countervailing duty investigation of standard steel welded wire mesh from Mexico (86 FR 18555, April 9, 2021). Following notification of a final determination by Commerce that imports of standard steel welded wire mesh from Mexico were being sold at LTFV within the meaning of section 735(b) of the Act (19 U.S.C. 1673d(a)), notice of the supplemental scheduling of the final phase of the Commission's antidumping duty investigation was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of July 1, 2021 (86 FR 35124).

The Commission made this determination pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determination in this investigation on July 30, 2021. The views of the Commission are contained in USITC Publication 5217 (July 2021), entitled *Standard Steel Welded Wire Mesh from Mexico: Investigation No. 731-TA-1527 (Final)*.

By order of the Commission.

Issued: July 30, 2021.
