

sturgeon under the Endangered Species Act (ESA) as threatened in the Gulf of Maine DPS and as endangered in the New York Bight, Chesapeake Bay, Carolina, and South Atlantic DPSs. Atlantic sturgeon within these DPSs are known to interact with the NE multispecies fisheries.

Following the publication of the final listing rule, NMFS has initiated formal consultation under Section 7 of the ESA for the NE Multispecies FMP and is developing a comprehensive Biological Opinion to ascertain the level of impact the fishery may have on these three Atlantic sturgeon DPSs. As part of the Section 7 consultation, NMFS will determine if the NE multispecies fishery jeopardizes the continued existence of any or all of the DPSs, or if the level of interaction may adversely impact but does not jeopardize survival of the species in any or all of the DPSs. These determinations will result in the requirement to develop and implement measures required by the ESA: Either Reasonable and Prudent Alternatives (RPAs) to avert survival jeopardy, or Reasonable and Prudent Measures (RPMs) to mitigate adverse impact on the DPSs.

The Council anticipates that some level of action will be necessary to develop and implement either RPAs or RPMs following completion of NMFS's Section 7 consultation process. In anticipation of this action, the Council is soliciting public comment on the types of measures that may mitigate the take and interaction of Atlantic sturgeon by the NE multispecies fishery, as well as the positive and negative environmental effects analysis necessary to evaluate these alternatives. The Council may elect to develop Atlantic sturgeon-related measures in conjunction with 2013–2015 catch and management measures in an EIS. However, if a FONSI can be substantiated, the action needed to implement Atlantic sturgeon mitigation measures may be analyzed in an EA. The Council will keep the public apprised of the level of NEPA analysis being conducted in conjunction with Atlantic sturgeon-related measures, as development of the overall action occurs.

The timing for development and completion of Atlantic sturgeon-related mitigation measures is currently uncertain. Completion of the Section 7 consultation is necessary to determine the magnitude of impact the NE multispecies fishery has on the continued survival of Atlantic sturgeon from these DPSs. The consultation is planned to be completed by September 2012; the associated Biological Opinion

will result in development of an Incidental Take Statement that will recommend RPAs or RPMs. These may include a process to develop and put in place mitigation measures by a time certain. The Council anticipates continued dialog with NMFS and the interested public regarding what requirements must be satisfied while consultation is ongoing and after consultation has been completed.

Public Comment

In addition to soliciting comment on this notice, the public will have the opportunity to comment on the measures and alternatives being considered by the Council through public meetings and public comment periods required by NEPA, the Magnuson-Stevens Act, and the Administrative Procedure Act.

The Council's process for developing ACLs, Atlantic sturgeon-related mitigation measures and NEPA-required analyses, in this case presumably one or more EISs, if necessary, will involve development work and meetings of the Groundfish Plan Development Team, Groundfish Committee, the SSC, the Recreational and Commercial fishery Advisory Panels, and the full Council. Information regarding the schedule for meetings, including agendas and meeting-related documents, involving these groups can be found on the Council's Web site: <http://www.nefmc.org/> or obtained by calling the Council office at (978) 465–0492.

COMMODITY FUTURES TRADING COMMISSION

Renewal of the Technology Advisory Committee

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of Federal Advisory Committee Renewal.

SUMMARY: The Commodity Futures Trading Commission has determined to renew the charter of its Technology Advisory Committee.

FOR FURTHER INFORMATION CONTACT: Gail Scott, Committee Management Officer, at 202–418–5139. Written comments should be submitted to David A. Stawick, Secretary, Commodity Futures

Trading Commission, Three Lafayette Centre, 1155 21st Street NW., Washington, DC 20581. Electronic comments may be submitted to dstawick@cftc.gov.

Comments may also be submitted by any of the following methods:

The agency's Web site, at <http://comments.cftc.gov>. Follow the instructions for submitting comments through the Web site.

Hand Delivery/Courier: Same as mail above.

Please submit your comments using only one method and identity that it is for the renewal of the Technology Advisory Committee.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to www.cftc.gov. You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.¹

SUPPLEMENTARY INFORMATION: The Commodity Futures Trading Commission ("Commission") has determined to renew its Technology Advisory Committee ("TAC"). The Commission has determined that renewing the advisory committee is in the public interest in connection with the duties imposed on the Commission by the Commodity Exchange Act, 7 U.S.C. 1–26, as amended. The TAC will operate for two years from the date of renewal unless, before the expiration of that time period, its charter is renewed in accordance with section 14(a)(2) of the Federal Advisory Committee Act, or the Chairman of the Commission, with the concurrence of the other Commissioners, shall direct that the advisory committee terminate on an earlier date.

The purpose of the TAC is to conduct public meetings, to submit reports and recommendations to the Commission, and to otherwise assist the Commission in identifying and understanding how new developments in technology are being applied and utilized in the industry, and their impact on the operation of the markets. The committee will allow the Commission to be an active participant in market innovation, explore the appropriate investment in technology, and advise the Commission on the need for strategies to implement rules and regulations to support the
