

2020 Final Rule was extended to January 1, 2023.³

Subsequently, Congress extended this effective date three times: (i) section 90006 of the Infrastructure Investment and Jobs Act, Public Law 117–58, prohibited implementation, administration, or enforcement of the regulatory revisions established by the 2020 Final Rule prior to January 1, 2026; (ii) section 13101 of the Bipartisan Safe Communities Act, Public Law 117–159, extended the moratorium on implementation, administration, or enforcement until January 1, 2027; and (iii) section 11301 of the Inflation Reduction Act of 2022, Public Law 117–169, further extended the moratorium on implementation, administration, or enforcement of the 2020 Final Rule until January 1, 2032.

II. Final Rule

This final rule stays the amendments made to the safe harbor regulations through the 2020 Final Rule, specifically the new paragraphs added at 42 CFR 1001.952(h)(5)(viii), 42 CFR 1001.952(h)(6)–(9), 42 CFR 1001.952(cc), and 42 CFR 1001.952(dd). Pursuant to the most recent congressional mandate in section 11301 of the Inflation Reduction Act of 2022, Public Law 117–169, the 2020 Final Rule's revisions to the safe harbor regulations will be stayed until January 1, 2032.

III. Regulatory Impact Statement

As set forth below, we have examined the impact of this final rule as required by the Administrative Procedure Act, Executive Order 12866, the Regulatory Flexibility Act of 1980, the Unfunded Mandates Reform Act of 1995, and Executive Order 13132.

A. Administrative Procedure Act

To the extent that 5 U.S.C. 553 applies to this action, implementation of this action without opportunity for public comment is based on the good cause exception in 5 U.S.C. 553(b)(B). Seeking public comment is impracticable, unnecessary, and contrary to the public interest. The postponement of the effective date, until January 1, 2032, is required by law. Seeking prior public comment on this postponement would have been impracticable, as well as contrary to the public interest in the

orderly issue and implementation of regulations.

B. Executive Order 12866 and the Regulatory Flexibility Act

Because no notice of proposed rulemaking is required for this rule, the provisions of the Regulatory Flexibility Act do not apply. Furthermore, this document does not meet the criteria for a significant regulatory action as specified in Executive Order 12866.

C. Unfunded Mandates Reform Act

Section 202 of the Unfunded Mandates Reform Act of 1995, Public Law 104–4, requires that agencies assess anticipated costs and benefits before issuing any rule that may result in expenditures in any one year by State, local, or Tribal Governments in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation). We believe that this final rule will not impose any mandates on State, local, or Tribal Governments or the private sector that would result in an expenditure of \$100 million or more (adjusted for inflation) in any given year, and that a full analysis under the Unfunded Mandates Reform Act is not necessary.

D. Executive Order 13132

Executive Order 13132 establishes certain requirements that an agency must meet when it promulgates a rule that imposes substantial direct requirements or costs on State and local governments, preempts State law, or otherwise has federalism implications. In reviewing this final rule under the threshold criteria of Executive Order 13132, Federalism, we have determined that this final rule would not significantly limit the rights, roles, and responsibilities of State or local governments. We have determined, therefore, that a full analysis under Executive Order 13132 is not necessary.

IV. Paperwork Reduction Act

In accordance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are required to solicit public comments, and receive final approval from the Office of Management and Budget, on any information collection requirements set forth in rulemaking. This final rule will not impose any information collection burden or affect information currently collected by OIG.

[DA 23–1179; MB Docket No. 23–302; RM–11965; FR ID 193053]

Radio Broadcasting Services; Lac Du Flambeau, Wisconsin

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the Table of FM Allotments, of the Federal Communications Commission’s (Commission) rules, by allotting FM Channel 225A at Lac Du Flambeau, Wisconsin, as a Tribal Allotment. The staff engineering analysis indicates that Channel 225A can be allotted to Lac Du Flambeau, Wisconsin, consistent with the minimum distance separation requirements of the Commission’s rules, with a site restriction of 12.1 km (7.5 miles) northwest of the community. The reference coordinates are 46–01–14 NL and 89–44–54 WL.

DATES: Effective February 2, 2024.

Magnuson-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; 2023–2024 Biennial Specifications and Management Measures; Inseason Adjustments; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; correction.

SUMMARY: NMFS published a final rule on November 29, 2023, to announce routine inseason adjustments to management measures in commercial and recreational groundfish fisheries for the 2024 fishing year. That rule is intended to allow commercial and recreational fishing vessels to access more abundant groundfish stocks while protecting overfished and depleted stocks. This action corrects the trip limits for the limited entry (LE) fixed gear and open access (OA) fleets for “Other Flatfish” (butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole) south of latitude (lat.) 40°10′ North (N). This correction is necessary so that the implementing regulations are accurate and implement the action as intended by the Pacific Fishery Management Council (Council). This action also corrects a final rule published on December 1, 2023.

DATES: The corrections are effective on January 1, 2024.

SUPPLEMENTARY INFORMATION:

Background

NMFS published the final rule to implement harvest specifications and management measures for the 2023–2024 biennium for most species managed under The Pacific Coast Groundfish Fishery Management Plan (PCGFMP) on December 16, 2022 (87 FR 77007). The harvest specifications and mitigation measures developed for the 2023–2024 biennium used data through the 2021 fishing year to help various sectors of the fishery attain, but not exceed, the catch limits for each stock. Based on updated fisheries information
