

Employer Costs for Employee Compensation (ECEC), employee benefits data (on coverage, cost, and provisions), and data used by the President's Pay Agent. This data is used by compensation administrators and researchers in the public and private sectors. Data from the NCS are used to help in determining monetary policy (as a Principal Federal Economic Indicator). The integrated program's single sample produces both time-series indexes and cost levels for industry and occupational groups, thereby increasing the analytical potential of the data.

The NCS employs probability methods for selection of occupations. This ensures that sampled occupations represent all occupations in the workforce, while minimizing the reporting burden on respondents. The survey collects data from a sample of employers. These data will consist of information about the duties, responsibilities, and compensation (earnings and benefits) for a sample of occupations for each sampled employer. Data will be updated on a quarterly basis. The updates will allow for production of data on change in earnings and total compensation.

This survey was revised to temporarily add questions to the National Compensation Survey to cover sick leave policy changes due to the coronavirus pandemic. These questions were collected primarily through email in June and July of 2020. These data were approved for collection under Emergency OMB Clearance Package 1220-0195, but they were discontinued on November 13, 2020. Respondents will electronically complete and submit responses through a simple fillable form. The additional sick leave policy questions are not intended to be collected beyond the July timeframe. At this time, BLS has discontinued in person data collection in response to the coronavirus pandemic. NCS will return to using in person interviews as a method of collection once restrictions are lifted. During this time, the NCS is relying heavily on telephone, email, and mail for current collection. Video interview collection is also available in response to the pandemic and is being considered as a standard collection method.

The NCS collects earnings and work level data on occupations for the nation. The NCS also collects information on the cost, provisions, and incidence of major employee benefits through its benefit cost and benefit provision programs and publications. BLS has for a number of years been using a revised approach to the Locality Pay Survey (LPS) component of the NCS; this uses

data from two current BLS programs—the Occupational Employment Statistics (OES) survey and the ECI program. This approach uses OES data to provide wage data by occupation and by area, while ECI data are used to specify grade level effects. This approach is also being used to extend the estimation of pay gaps to areas that were not included in the prior Locality Pay Survey sample, and these data have been delivered to the Pay Agent (in 2019, data for 95 areas were delivered).

For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 11, 2020 (85 FR 35667).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

#### 60-Day Notice for the "NEA Panelist Profile Data"

**AGENCY:** National Endowment for the Arts, National Foundation on the Arts and the Humanities.

**ACTION:** Notice of proposed collection; comment request.

**SUMMARY:** The National Endowment for the Arts (NEA), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data is provided in the desired format; reporting burden (time and financial resources) is minimized; collection instruments are clearly understood; and the impact of collection requirements on respondents is properly assessed. Currently, the NEA is soliciting comments concerning the proposed information collection of NEA panelist profile data. A copy of the current information collection request can be obtained by contacting the office listed below in the address section of this notice.

**DATES:** Written comments must be submitted to the office listed in the address section below within 60 days from the date of this publication in the **Federal Register**. The NEA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Can help the agency minimize the burden of the collection of information on those who are to respond, including through the electronic submission of responses.

**ADDRESSES:** Email comments to Daniel Beattie, Director, Office of Guidelines and Panel Operations, National Endowment for the Arts, at: [beattied@arts.gov](mailto:beattied@arts.gov).
