Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and

interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Ross Bachofer v. Calpine Corporation; Notice of Complaint

November 4, 2010.

Take notice that on October 26, 2010, pursuant to sections 206 of the Rules and Practice and Procedure, 18 CFR 385.206 and section 206 of the Federal Power Act, 16 U.S.C. 2824c, Ross Bachofer (Complainant) filed a complaint against Calpine Corporation (Respondent), alleging that damages to the Complainant's property are due to flooding caused by the Respondent.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

[Project No. 1005-011]

City of Boulder, CO; Notice of Availability of Environmental Assessment

November 5, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has prepared an environmental assessment (EA) for an application filed by City of Boulder, Colorado (licensee) on March 10, 2009, requesting Commission approval to exempt its currently licensed Boulder Canyon Hydroelectric Project from the licensing requirements of Part I of the Federal Power Act (FPA) and to surrender its license for the project. The project is located on the Middle Boulder Creek, in Boulder County, Colorado. The licensee requests to surrender the following licensed project features: (1) The Barker Reservoir; (2) the Barker Dam; (3) the outlet structure; (4) the concrete tunnel; (5) the valve house; (6) the concrete Barker gravity pipeline; (7) the Kossler Reservoir, including the Southwest Dam, the Northeast Dam, and the West Dam; (8) the concrete outlet structure, including the trash screens and a gate; and (9) the steel penstock. The licensee states that the exempted project would consist of the existing powerhouse containing one generating unit having an installed capacity of 10 MW and appurtenant facilities. The licensee estimates that the project would have an average annual generation of 11.6 megawatt-hours that would be sold to a local utility.

The EA evaluates the environmental impacts that would result from approving the licensee's proposal for surrender of its project license and conversion to a conduit exemption. The EA finds that granting surrender of the license and issuing the exemption for the Boulder Canyon Hydroelectric Project would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission Order titled "Order Granting Exemption From Licensing (Conduit) and Accepting Surrender of License," issued November 5, 2010, and is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov>

[Project No. 2157-188]

Public Utility District No. 1 of Snohomish County, WA; Notice of Availability of Final Environmental Assessment

November 4, 2010.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC's) regulations, 18 Code of Federal Regulations (CFR) part 380 (Order No. 486, 52 **Federal Register** [FR] 47897), the Office of Energy Projects has reviewed Public Utility District No. 1 of Snohomish County's application for license for the Henry M. Jackson Hydroelectric Project (FERC Project No. 2157-188), located on the Sultan River 20 miles east of the city of Everett, Snohomish County. The project currently underlies a total of 10.9 acres of federal lands in the Mount Baker-Snoqualmie National Forest administered by the U.S. Department of Agriculture, Forest Service.

Staff prepared a final environmental assessment (EA), which analyzes the potential environmental effects of relicensing the project, and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
